EXPERIENCE

Software Developer   February 2024 - Present
Immabeme Solutions   *Noida , Uttar Pradesh*

- Developed the SettleMed frontend using React, integrated APIs, optimized performance, implemented RPA automation, improved efficiency, and collaborated on product enhancements.

Front End Developer   October 2023 - January 2024
ELEVATIFIER   *Noida , Uttar Pradesh*

- Developed and maintained web applications using .NET, optimized backend performance, and integrated APIs for seamless data processing and functionality.

Full stack developer intern   July 2023 - September 2023
Obyte technology pvt ltd   *Noida , Uttar Pradesh*

- Designed and implemented interactive UI components for a seamless user experience, developed and optimized backend logic to enhance application performance, and collaborated on database management and APIs.

PROJECTS

Typing Test Website . Designed and developed a typing website using ReactJS to demonstrate frontend development skills and ReactJS proficiency. The platform enables users to improve their typing speed and accuracy through interactive tests. It also provides result analysis to track progress and performance.

Business Website . Built a business website using NodeJS, ExpressJS, and MongoDB, showcasing full-stack development expertise. Implemented user authentication, interactive forms, and efficient data storage. Ensured scalability and optimized server-side handling for better performance.

CERTIFICATIONS

- Database Management System-1
- 72-Hour Core Java Training
- Human Computer Interaction
