CERTIFICATIONS

📖 Web Development

Udemy

Introduction to fundamental concepts of web development and implementation.

PROJECTS

Hotel and Restaurant Management

📅 Jan 2023 - May 2023

A project developed with the idea of connecting hotel's and restaurant hierarchy with the same system to provide an single platform for everyone working at different level. The intermediate platform would make an attempt to ease the process of hiring the labourers and monitor the wages provided to them by the builders. Technology used to develop the frontend of the application is HTML, CSS and Bootstrap. The backend has been developed using the concepts of Java.

Twitter Sentiment Analysis

📅 March 2022 - April 2022

Web application used for analysing the tweets and their sentiment to get the proper stats for anything tweeted in the twitter handle.

PROFILE

Highly motivated technology professional launching career as a software engineer. I am a problem solver and strong communicator eager to prove my value and talent. Motivated to advance and expand my skill set through targeted mentorship and challenging projects.

TECHNICAL SKILLS

HTML   CSS   Jquery   Bootstrap
React   Node js   Express js

Programming: C++   Javascript

Database and Management: SQL

SOFT SKILLS

Adobe Illustrator
Adobe Photoshope   Content Writer

EXTRA-CURRICULAR ACTIVITIES

Leadership Skills
Problem Solving
Organized interdepartment debate competition
Achieve prizes in numerous drawing competions
Won prize in speech competition
