

Experience

Larch Soft Pvt. Ltd., Bodh Gaya, Feb 2023 - Present

Position: Java SpringBoot Developer

- Demonstrated expertise in frontend technologies including **HTML, CSS, JavaScript, jQuery, AJAX, Bootstrap**, and **Thymeleaf** to create dynamic and responsive user interfaces.
- Proficient in utilizing backend technologies such as **Java, Spring Boot, Hibernate**, and **SQL** to develop robust server-side components and ensure seamless integration with frontend interfaces.
- Actively contributed to the end-to-end development lifecycle, from conceptualization and design to implementation and deployment of web applications.
- My role as a **Web Designing & Development** professional at **Larch Soft Pvt. Ltd.**, based in Bodh Gaya, commenced in September 2023. Since then, I have leveraged my skills in both **frontend and backend** technologies to contribute to the development of innovative web solutions for our clients.

Projects

Instagram API [[Github Link](#)]

- The Instagram Spring Boot project is a robust web application that replicates core functionalities of Instagram. It offers features like user registration, photo sharing, social interactions, and user following. It's built using Spring Boot for efficient development and deployment.
- Key features include user authentication, photo uploading, liking, commenting, and following other users. It also supports notifications for new activities.
- Tech Stack: **Java, Spring Boot, MVC Architecture, MySQL, AWS EC2, Git.**
