EXPERIENCE

2021 - Present

Noida

• MERN Stack Developer

AppAbodes Pvt. Ltd.

AppAbodes is a software development company providing services such as software development, IT consulting and outsourcing services.

- Handled the **fullstack development** of a job portal similar to linkedin and naukri.com from scratch.
- Handled the development of **react native** app and its microservices backend.
- Build both dynamic and static responsive website using latest web technologies.
- Worked on integration of third party services.
- Worked in **agile development** flow.
- Collaborated with QA, DevOps Engineer and Project lead** to gather the requirements and build features, demonstrating strong communication and interpersonal skills
- Assisted new team members** in understanding the project and functionality of different modules, contributing to a culture of knowledge sharing and continuous learning.

2019

Remote

• Frontend Developer (Internship)

Voopik Pvt. Ltd.

Voopik private limited is engaged in the business services industry.

- Worked on static **responsive websites** using web technologies like HTML, CSS, Javascript and Tailwind
- Development of components and different features.
- Made existing components and sections responsive for mobiles, tablets and desktops.
- Learned **Git and Github** for code versioning and collaboration

PROJECTS

Busyting

📅 2021 - 2023 📍 Noida

A job portal website connects employers with job seekers, offering a platform to post and search for employment opportunities.

- Developed the frontend using **Next.js and React for server-side rendering (SSR)**, ensuring optimized performance and seamless user experiences.
- Build job filtering system and recommendation algorithm to enhance user experience by presenting relevant job opportunities based on user preferences and profile.
- Integrated **Stripe payment gateway** to facilitate secure and seamless financial transactions on the platform, ensuring a user-friendly payment experience
- Implemented **currency conversion features**, allowing users to view and transact in multiple currencies, enhancing the platform's global accessibility
- Implemented **OAuth authentication** with popular social media platforms, including Google, Facebook, and LinkedIn, providing users with a seamless and secure login experience.
- Created an intuitive admin panel with comprehensive functionalities for efficient management, monitoring, and control of the platform, ensuring a smooth administrative experience.
- Dynamic generation of resumes based on user info and exporting them in pdf format.
- Integrate several other services and technologies like SendGrid for emails, RabbitMQ for communication and **socket.io for real-time chat** implementation

Student Paddy

📅 2023 - Present 📍 Noida

Student paddy is a digital campus where you can grow personally and professionally through diverse and innovative discussions and sessions with your peers.

- Developed **cross-platform mobile app** using React Native with TypeScript for enhanced code integrity.
- Integrated and optimized real-time chat functionality for seamless communication.
- Worked with scalable **microservices architecture** for efficient backend processes with TypeScript.
- Utilized MongoDB as the primary database for efficient data storage and retrieval.
- Implemented **push notification** system for timely updates and user engagement.
- Implemented **Redis for data caching**, resulting in improved app performance and responsiveness.

Khiladi Adda

📅 2021 📍 Noida

Khiladi Adda is a skill based Micro e-Sports,fantasy sports and Online gaming Platform. Worked on website part of Khiladi Adda

- Designed and developed a responsive website with HTML, CSS, SASS, and JavaScript.

EDUCATION
