Polytechnic Diploma in Computer Science and Engineering

Percentage:72.89%

Project Work

MooFlix Junction Web App | [\[LIVE\]](#)

(*React, Redux, Firebase, Tailwind CSS, Regex, TMDB API*)

- Secure Authentication: *Firebase-based* user authentication.
- Robust Error Handling: Comprehensive error handling and form validations(using Regex) to ensure data integrity.
- State Management: Utilized Redux toolkit for efficient state management, ensuring a smooth user experience.
- Movie Data Integration: TMDB API fetched latest movie data, enhancing browsing experience.

The Weather Forcaster | [\[LIVE\]](#) | [\[GITHUB\]](#)

(*React, Redux, Tailwind CSS, OpenWeather API*)

- Show current weather status according to the user location input.
- User can use the current-location using GeoLocation API.
- Redux Store for State Management.

College Website UI | [\[LIVE\]](#) | [\[GITHUB\]](#)

(*HTML, Vanilla CSS, JS, Bootstrap*)

- Leveraging Bootstrap framework for consistent and visually appealing design elements.
- Incorporating interactive elements like dropdown menus, sliders, and modal windows to engage users.
- Ensuring seamless user experience & frontend across various devices including desktops, tablets, and mobile phones.

Achievements & Certifications

- Academic Excellence: Secured *first position* in the college during Polytechnic Diploma studies, demonstrating consistent dedication and outstanding performance in academics.
- Completed a comprehensive [Web Development Bootcamp](#) course on Udemy, mastering key skills in frontend development.
- Professional Training: Completed a 24-days training program in Android development at the Center for Electronic-Governance(an autonomous body of Government of Rajasthan), Jaipur, during my Polytechnic Diploma, gaining valuable experience.
