## OBJECTIVE

---

”Enthusiastic Frontend Developer with 1.6 years of experience in building responsive and user-centric web applications. Skilled in modern frameworks and committed to delivering innovative solutions that enhance user experiences.”

## EDUCATION

---

**Bachelor of Computer Applications**  
IGNOU

Expected 2025 May.

**Diploma in Computer Science**  
Kasturba Institute of Technology.

2020

## SKILLS

---

<b>Technical Skills</b>	HTML 5, CSS3, Bootstrap , JavaScript, C/C++, React.js, TypeScript, Angular.
<b>Version Control</b>	Git, Bitbucket, GitHub. Tools
<b>Jira Board Soft Skills</b>	Communication, Teamwork, Problem-solving, Time Management.

## EXPERIENCE

---

**Frontend Angular Developer**  
GarudaUAV Soft Solutions, Noida, India

July 2023 - Nov 2024

- Developed an interactive layout, using HTML, CSS and JavaScript, typescript , Angular , NGXs , Amcharts library and OpenLayers , Leaflet library to generate an improved user experience and ensure high-quality design and crossbrowser compatibility.
- Collaborated with other developers, designers, and project teams to ensure successful, on-schedule development and delivery of applications.
- Collaborated with backend developers to integrate APIs, ensuring optimal performance and responsiveness.
- I have gained experience integrating APIs from the backend to the frontend to facilitate data connectivity and exchange.

## PROJECTS

---

### BlueHawk Forestry, BlueHawk Mining, BlueHawk NTPC and BlueHawk NHAI

Designed and developed the project from scratch, including overall architecture and user interfaces. Integrated amCharts for interactive data visualization and Leaflet maps or Open Layers to display geographical data using GeoJSON. Plotted markers and rendered various file types, such as TIFF, KML, and shapefiles, on maps to visualize raster and vector data. Contributed to state management implementation using NgXs and integrated RESTful APIs for real-time data updates. Built and tested application functionality to ensure a desirable user experience across all platforms.

Achievements:

- Successfully implemented complex geographical data visualizations, enhancing data analysis capabilities and achieving seamless integration of diverse data formats for accurate and efficient representation.
- Improved user satisfaction by providing intuitive and interactive map features, and spearheaded debugging efforts to eliminate cross-browser issues, improving application functionality and performance.
- Gained proficiency in Angular and state management techniques, optimizing page elements for faster loading times.

### **E-commerce website**

Built online shopping website that allows people to buy and sell physical goods, services, and digital products over the internet using REACT JS, CSS, BOOTSTRAP, REDUX , where one can find their product and add them to "cart" and securely enter their payment information to complete their purchases. ([Try it here](#))

### **GarudaUAV Website**

"Played a key role in the design of the GarudaUAV website, focusing on creating a responsive layout that ensures an optimal user experience across mobile, tablet, and desktop devices. Utilized HTML5, CSS3, Bootstrap, and JavaScript to develop visually appealing and user-friendly interfaces, enhancing accessibility and engagement." ([Try it here](#))
