• Bachelor of Computer Applications (BCA); CGPA: 8.7 | Aug 2018 – July 2021
New Delhi, Delhi |

EXPERIENCE

S4 Vellcon Private Limited 15 Aug 2024 – 10 Feb 2025

Assistant Software Developer (Next.js)

Remote (WFH)

- Designed and developed a feature-rich **e-commerce platform** with dedicated customer-facing, admin, and super-admin portals using **Next.js**, **Tailwind CSS**, and **Redux**.
- Implemented **context-based authentication** for the customer site, including **OTP-based login** and secure user data management within the context API.
- Integrated **25+ REST API endpoints**, optimizing request-response latency and reducing load times by **40%** using advanced caching mechanisms, enhancing overall platform performance and user experience.
- Developed a highly user-friendly **admin panel** with role-based access control using **NextAuth.js** for authentication, improving system security and administrative efficiency.
- Utilized **Firebase notifications** to provide real-time updates to users about their orders and platform activities.
- Integrated **Razorpay payment gateway** for seamless payment processing, ensuring a secure and reliable transaction experience for customers.
- Created a **responsive and intuitive UI/UX** for both the customer and admin portals, prioritizing accessibility and ease of navigation.
- Collaborated with cross-functional teams to ensure timely delivery of high-quality features and functionality.

Inept Studio Private Limited

Nov 2021 - Aug 2022

Full-Stack Web Developer Intern

Delhi, India

- Designed and build a website for a **virtual learning platform** using Next.js
- Crafted a **robust admin panel** using React.js and Redux.js for **efficient user management of a 1000+ user base**.
- Learnt and mastered good concepts of React.js such as React Hooks, **Redux**, **Virtual Dom**, Router etc. and Node.js such as Event loop, api endpoint creation, etc
- Developed and maintained scalable web applications using **React.js**, **Next.js**, **JavaScript**, **Node.js**, **MySQL**, and **MongoDB**.

PROJECTS

mygroce — Next.js, Tailwind CSS, Redux, NextAuth.js, Razorpay

- Built a comprehensive e-commerce platform, including separate customer, admin, and super-admin portals.
- Integrated **context-based authentication** for customer login, including OTP-based access and secure storage of user data.
- Implemented a cart management system using **Redux** for efficient state management and seamless user experience
- Designed and developed a secure admin panel using **NextAuth.js** for authentication and role-based access control.
- Added real-time **Firebase notifications** to enhance communication and user engagement.

ERP Management System — React.js, formik, Material table, MySQL, Material-UI, Sequelize

- Developed an ERP system to manage **day-to-day company activities** such as attendance management, task holiday management, etc.
- Created user-friendly admin and employee portals, improving internal processes and **productivity**.
- Implemented **Nodemailer** for secure email notifications and password recovery.
- Integrated **FullCalendar library** for effective holiday management and scheduling.
- Conducted CRUD operations using integrated backend REST APIs for data management.

upmarks — Next.js, Tailwind CSS, Node.js, Express.js, MongoDB

- Created a comprehensive e-learning platform for school students, featuring virtual experiments, gamified learning, and quizzes.
- Utilized **Firebase** for secure user authentication and data protection.
- Integrated **Paytm payment gateway** for seamless online transactions.
- Designed and developed a responsive frontend UI for enhanced user experience.
- Used **AWS S3** for reliable backend data storage.

TECHNICAL SKILLS

- **Languages:** C, C++, Python, JavaScript
- **Technologies:** HTML, CSS, React.js, Redux, Next.js, Node.js, Express.js, MongoDB, MySQL, RestAPI, Git, GitHub, Jira, Firebase
