Priyanshi Agarwal

React Developer

+918865966263
priyanshi0340@gmail.com
Noida, India

Summary

Skilled React Developer with over 2.5 years of experience in software development, specializing in building responsive and user-friendly web applications that improved user engagement by 30%. Proficient in React.js and driven by a passion for continuous learning and innovation. Successfully collaborated with senior developers while mentoring junior team members, fostering a supportive and productive team environment. Eager to embrace complex problems that promote career growth and the opportunity to contribute to impactful projects in a fast-paced, flexible setting.

Skills

React Js	Typescript	Javascript
Redux	Git	Bitbucket
Jira	CSS	Material UI
Ant Design	HTML	

Work Experience

Front End Developer

EV Software Solution Pvt Ltd. | Noida   June 2023 - Present

- Spearheaded the development of a highly scalable React-based E-commerce platform, empowering over 1 million sellers to effectively market their products in Japan, resulting the increase in user engagement and 20% improvement in platform reliability.
- Engineered seamless RESTful API integrations that enabled real-time content retrieval, optimizing real-time performance and ensuring response times less than 200ms for a smooth user experience.
- Partnered with cross-functional teams to architect and implement responsive UI components using MUI, React.js, and TypeScript, delivering intuitive and mobile-optimized user experiences that improved load times and increased mobile user satisfaction by 25%.
- Collaborated with backend teams to design and optimize API endpoints and data structures, facilitating seamless data exchange between front-end and back-end systems, resulting in a 40% reduction in data retrieval times and improving overall system reliability.
- Implemented advanced state management using Redux, enhancing the efficiency of application state control and improving performance by reducing unnecessary re-renders, which contributed to a 20% increase in application speed.
- Independently conceptualized, designed, and maintained key product components, driving product success through continuous innovation and technical ownership, achieving a 15% increase in user engagement.
- Authored modular, high-performance code for responsive cross-platform user interfaces, ensuring code reusability and reducing future development time by 20%.

Front End Developer

InnoBit Systems Pvt Ltd | Noida   March 2022 - May 2023

- Work in the development of a scalable React-based cloud library for CAT, enabling seamless book purchasing across Europe while enhancing platform efficiency by 30% and increasing user engagement.
- Engineered high-performance, responsive user interface components with React.js, TypeScript, and Ant Design (antd), optimizing UX/UI responsiveness and reducing page load times by 40% across devices while improving user satisfaction scores by 20%.
- Streamlined application state management with Redux, efficiently handling state transitions and incorporating advanced features like pagination to enhance user navigation and reduce content retrieval times by 50%.
- Developed modular, reusable code frameworks across multiple components, reducing implementation time and accelerating testing cycles by 30%, driving overall project efficiency.
- Contributed to resolving critical bugs and conducted thorough testing to ensure application scalability and stability, improving system reliability by 20%.

Education

Computer Science
Dr. APJ Abdul Kalam Technical University - B. Tech 2022. 7.86 CGPA

12th Board
Shri Gulab Rai Group of Institutions 2018, PCM with 92%

10th Board
Shri Gulab Rai Group of Institutions 2016, with 10 CGPA
