## EXPERIENCE

- Isynbus Technology** On-Site  
*Frontend Developer (Full-time)* *Nov 2022 - present*
  - **Propfyi:** Led the development of Propfyi, a dynamic real estate platform for web and app, employing full-stack expertise. Implemented cutting-edge technologies to optimize performance and ensure seamless user experiences. Link-<https://www.propfyi.com>
  - **Bimahelpdex:** I led the creation of an insurance platform enabling seamless user-to-user experiences, augmented with a streamlined chat feature. I ensured seamless functionality and an intuitive user experience tailored for Android users.
  - **Kanpid:** I spearheaded the development of a feature-rich e-commerce application. This application was enriched with additional functionalities, such as a 'Lost and Found' section, empowering users to report and retrieve lost items conveniently. Additionally, I integrated a comprehensive in-app product store, offering users a vast array of purchasing options.
  - **Aquatopper:** Orchestrated the development of Aquatopper, a pioneering swimming pool water level management system, seamlessly integrated with a backend API and crafted for Android using React Native. Leveraged React Native proficiency to optimize performance and ensure intuitive user interaction on Android devices. Collaborated closely with stakeholders to incorporate essential featureswigomaniahairstudio.com for efficient water level monitoring and management, seamlessly synchronized with the backend API.
  - **Caravan Parking:** Led the creation of CaraVan Parking, an inventive project centered on caravan parking, utilizing SVG and JavaScript to deliver a dynamic user experience, contributing to its effectiveness as a user-friendly solution in the realm of caravan parking management. Link-[figtreecaravanstorage.com.au](http://figtreecaravanstorage.com.au)
  - **Wigomania:** As the project lead for Wigomania, I oversaw the development and delivery of a sophisticated salon management system. While not directly involved in Laravel backend development, I orchestrated the seamless integration of frontend technologies such as HTML, CSS, Bootstrap, and JavaScript with the Laravel backend. Through effective communication and collaboration with Laravel developers, I ensured the creation of a robust and user-friendly platform tailored for salon operations. My leadership ensured the optimization of performance and usability, making Wigomania a premier solution for salon management needs. Link-[wigomaniahairstudio.com](http://wigomaniahairstudio.com)
- Dynamisers Solution Private Limited** On-Site  
*Frontend Developer (Full-time)* *July 2021 - Oct 2022*
  - **Sokudo India:** As the sole leader and developer of Sokudo India, I drove the project from conception to delivery, harnessing HTML, CSS, Bootstrap, JavaScript, basic PHP, and MySQL. Through meticulous planning and execution, I ensured the seamless integration of frontend and backend elements, crafting a user-centric web application. Implementing robust features independently, I optimized performance and usability while adhering to project timelines. Sokudo India stands as a testament to my proficiency and dedication in delivering comprehensive solutions tailored for the Indian market. Link- [sokudoindia.com](http://sokudoindia.com)
  - **Arrow PC Network:** As the driving force behind Arrow PC Network, I led the development and successful delivery of a versatile web application using HTML, CSS, Bootstrap, and JavaScript. Through meticulous planning and execution, I ensured seamless integration of frontend technologies to create an intuitive user experience. Leveraging my expertise in web development, I optimized performance and usability, delivering a robust solution tailored for Arrow PC's network needs. Link- [arrowpcnetwork.com](http://arrowpcnetwork.com)
  - **Carstreet:** As the project lead for Carstreet, I spearheaded the development of a dynamic web platform for car sales, utilizing HTML, CSS, JavaScript, Bootstrap, and jQuery. Through meticulous planning and execution, I ensured the seamless integration of frontend technologies to deliver an intuitive user experience. Leveraging my expertise in web development, I optimized performance and usability, facilitating smooth navigation and efficient browsing for prospective buyers. Link- [carstreetindia.com](http://carstreetindia.com)
  - **Dynamiser Solutions:** As a pivotal member of the team at Dynamiser Solution, I played a dual role in handling both frontend and backend aspects of the company website. Collaborating closely with the team, I contributed to the development and maintenance of a robust website using a combination of HTML, CSS, JavaScript, and backend technologies. My responsibilities encompassed ensuring seamless integration between the frontend and backend components, optimizing performance, and enhancing user experience.
