PROFESSIONAL SUMMARY

Frontend Developer with over 3 years of experience in building **responsive, user-friendly web applications**. Proficient in **HTML, CSS, JavaScript**, and frameworks such as **React.js** and **Angular**. Strong expertise in **cross-browser compatibility**, **responsive design**, and delivering **clean, efficient code**. Experienced in working with **version control tools (Git)** and **JavaScript libraries**. Adept at collaborating with designers and developers to create seamless, interactive user interfaces.

SKILLS

- **Languages**: JavaScript (ES6+), HTML5, CSS3
- **Frameworks & Libraries**: React.js, Angular, Redux
- **Styling**: SCSS, Tailwind CSS, Responsive Design, Bootstrap
- **Version Control**: Git, GitHub
- **Image Editing Tools**: Photoshop, GIMP
- **Testing & Debugging**: Unit Testing, Integration Testing, E2E Testing
- **Web Development**: Mobile-first Design, Cross-browser Compatibility, Performance Optimization

EXPERIENCE

W3Villa Technologies, Location - *Noida*
Software Developer (March 2022 - Present)

- Developed and maintained **responsive web applications** optimized for various devices and browsers using **React.js** and **JavaScript**.
- Worked closely with designers to implement interactive features like **forms, menus, and buttons**, ensuring a seamless user experience.
- Collaborated with cross-functional teams, including graphic designers and user experience designers, to ensure all elements of web creation were consistent.
- Wrote and maintained clean, **efficient code**, adhering to best coding practices.
- Managed version control using **Git**, ensuring smooth collaboration across teams.
- Focused on **cross-browser compatibility** and **responsive design** to optimize user experiences.

PROJECTS

Plist Booking (ChatBot Widget) - (React JS Developer)

Description -

- Developed a chatbot widget with an admin panel where vendors can add their properties and generate a script tag to embed in their HTML files, allowing the chatbot to function on their website.
- Enabled users to interact with the bot to book properties directly without needing to visit the website, ensuring a seamless experience.
- **Technologies:** React.js, Redux, Hooks, JavaScript (ES6+), JSX, Tailwind CSS, Git, API integration.

Silo Members - (React JS Developer)

Description -

- Developed and maintained an e-commerce platform, ensuring high performance and responsiveness.
- Participated in code reviews and user testing to improve code quality and user experience.
- **Technologies:** React.js, Redux, Hooks, JavaScript (ES6+), JSX, Git, JIRA, Postman.

CarAdvise - (React JS Developer)

Description -

- Contributed to the development of an e-commerce platform for vehicle insurance.
- Implemented complex features and conducted thorough testing and debugging.
- **Technologies:** React.js, Redux, Hooks, JavaScript (ES6+), JSX, Git, JIRA, Postman.

Kivo - (Team Lead - React JS Developer)

Description -

- Led a team of four frontend developers, focusing on delivering responsive interfaces with cross-browser compatibility and implementing complex JavaScript logic. Ensured adherence to web accessibility standards and Agile methodologies.
- Developed user-friendly, responsive interfaces and implemented state management using Redux.
- **Technologies:** React.js, Redux, Hooks, JavaScript (ES6+), JSX, Git, JIRA, Postman.

Infra Marketplace - (Sole Frontend Engineer)

Description -

- Developed and maintained the frontend of an e-commerce platform for warehouse equipment.
- Designed and implemented responsive user interfaces, ensuring cross-browser compatibility.
- **Technologies:** HTML, SCSS, jQuery, JavaScript, Git, JIRA.

EDUCATION

R. V. Institute of Technology, Bijnor - *B.Tech*

July 2018 - June 2022

AWARDS

Rising Star - W3Villa Technologies, 2022

Hackathon Runner-up Team - W3Villa Technologies, 2022
