SUMMARY

A Software Test Engineer by the profession with 2 years of experience in Manual testing which includes Regression, Cross-Device, System, and Core Functional Testing. Proficient in Jira, Git, SQL, and Automation testing tools which includes Selenium, Postman. Have worked on projects like Convene, ESG, and CERKS. As a team player, I exceed company standards and constantly seek knowledge from diverse sources. I thrive on exploring the latest technologies and finding bugs and security vulnerabilities in it. My enthusiasm drives me to deliver exceptional results and contribute to the success of each project in which I worked on with the team env.

CERTIFICATIONS

- [LambdaTest Software Testing Professional Certificate](#) by LambdaTest
- [LambdaTest Test Automation Professional Certificate](#) by LambdaTest
- [Mobile Testing with Appium](#) by LinkedIn Learning
- [PostmanAPI Testing from Scratch with Live Projects](#) by Udemy
- [Oracle SQL](#) by Great Learning Academy
- [Performance Testing Foundations](#) by LinkedIn Learning
