EDUCATION

Bachelors of Computer Science Graduate
Chitkara University

08/2018 - 06/2022   *CGPA -9.25*

B.Tech - Computer Science

- Computer Science Engineering
- Photo & id card ⊡

WORK EXPERIENCE

QA Engineer (Lending Team) Paytm

06/2022 - Present   *Noida*

Achievements/Tasks

- Executed manual and automated testing to identify and rectify Quality faults.
- Working and Maintaining the backend automation framework for Lending Backend Services
- Working on cucumber framework for backend API testing
- Requirement gathering from product and Developer to deliver quality products to the end users
- Worked on identify loopholes in a compliance involved setup

Internship
QA Intern (Lending Team) Paytm

01/2022 - 06/2022   *Bangalore*

Tasks

- Working on Loan management system of Paytm. Product Postpaid (Buy now Pay Later).
- Developed proficiency in manual testing including test case creation, execution and reporting for Postpaid product.
- Gained a strong understanding of SDLC and its phases.

RESEARCH PAPER

Fuzzy c Means

07/2019

International Journal of Innovative Technology and Exploring Engineering (IJITEE)

- Behaviour of Players on IPL Based on Fuzzy C Means
- Clustering Algorithm
- Clustering algorithms are being widely used in the field of data mining in order to accumulate similar data in the form of clusters.
- Clusters
- IPL Dataset

SKILLS

JAVA | API & Automation Testing

Quality Assurance | MAVEN | Git | DBMS

Cucumber | Karate | Test Documentation

TestNG | Root Cause Analysis | Postman | Jira

Unit Testing | Load Testing | Integration Testing

Regression Testing | Elastic search | Debugging

PROJECTS

Paytm Postpaid (08/2022 - Present)
- Played a key role in maintaining a highly reliable and stable productive environment, mostly worked on LMS(loan Management system).
- Received commendation from senior for outstanding performance in managing the Paytm Postpaid.

Chitkara ACM (08/2020 - 06/2022)
- An app used in our university for event registration.
- Handle millions of users and used by most of our university students.

Project Name

APKA (01/2020 - 08/2020) ⊡
- Developed the complete ecosystem required by airways travelers.
- Developed by **Airport Authority of India** in **Smart India Hackathon.**
- It manage data through live **API** of flight, bus, train and weather.

FoodVision (06/2019 - 07/2019)
- Android app developed using java in International hacakathon.
- Won 2nd prize with this app aims to stop food wastage with the help of woman for prevention of irregular climate changes. ⊡

HACKATHONS WINNINGS

Reboot the Earth - UN hackathon (International level)
2nd position

Smart India Hackathon - (World Biggest Hackathon)
Finalist
