EDUCATION

Course	Year	Institute	Percentage/CGPA
Bachelor of Engineering in Computer Science	2019-2023	Graphic Era Hill University, Bhimtal Campus	8.60 /10
12th Grade	2016-2018	Gurukul International School	75 %
10th Grade	2014-2016	Gurukul International School	70.4%

EXPERIENCE

- **Associate Software Developer** @10Times   **Jan 2024-Present**
  Currently leading the development of a new product at 10times, leveraging Next.js, React, and TypeScript. Collaborating closely with teams to define requirements, design architecture, and create user interfaces, while ensuring adherence to best practices for code quality and scalability.
- **Web Developer Intern** @MySideTeams   **Feb 2023-Apr 2023**
  Worked as a web developer intern where I have added some functionalities to their react js e-commerce website by implementing some filters using props and use-state, and also added some data in their website which uses firebase as a database.

PROJECTS

- **Weather App**   **Mar 2024-Apr 2024**
  I developed a weather application using TypeScript and React that fetches real-time weather data based on latitude and longitude coordinates. Additionally, the app includes a user-friendly search feature, allowing users to easily find weather information by entering a specific place name
- **E-Comm**   **Jun 2023-Aug 2023**
  Developed a feature-rich e-commerce website front-end using React.js, providing a seamless and responsive user experience with the help of context api. Some key features include pagination, add to cart functionality, filter option and also make use of local storage.
- **Pustaken**   **Jan 2022-June 2022**
  Built a user-friendly book recommendation system, an innovative book recommendation system utilizing Machine Learning. Crafted a visually appealing and user-friendly interface, integrating Kaggle data and Google Books API for enhanced user experiences. Proficient in HTML, CSS, and JavaScript, contributing to seamless navigation and interactive features.

HOBBIES   Watching Movies and Web Series, Listening to Music

SOFT SKILLS   Flexible, Time Management, Eager to learn new things

TECHNICAL SKILLS

Algorithms and Data Structures, Web Development, Git, APIs.

Programming language: Java

Programming profile:

- Leetcode
- GeeksforGeeks

Also familiar with: Javascript, CSS, HTML, BootStrap, OOPS, SQL, DBMS, ReactJs, NextJs, Typescript, GitHub.
