Proven skills in completing black, white and gray box tests. Background writing and implementing test cases, developing testing plans and identifying use cases. Fully versed in complete SDLC.

Work History

2020-03 -
Current

Software Test Engineer

Breachlock Inc, Hyderabad, India

- Developed 500+ initial test plans and test cases, including performance test plans and security test plans.
- Created comprehensive test plans, test scripts, and use cases to support testing objectives.
- Operated under Agile and Scrum frameworks to complete releases and organized sprints.
- Gathered data on integration issues and vulnerabilities, reported findings and recommended improvements.
- Developed and maintained defect databases for known issues.
- Tested hardware and software within sandbox environment prior to release to production.
- Reduced overall testing time by implementing parallel execution techniques in automation frameworks.
- Monitored resolution of bugs, tested fixes, and helped developers tackle ongoing problems by providing QA perspective.
