2022-11

Web Developer

Pyra Squre Fintech Ltd

- Developed MLM Project :-Analyzed business requirement to translate functional requirement into technical requirement and developed web application using MongoDB
- Express, React.js/Redux and Node.js
- Worked on Life-cycle Methods, State, Props and Events to create interactive and stateful component, achieved routing using react-router
- Designed rich featured action creators and crossponding reducers
- Used React Axios to call Web APIs to fetch data from back-end and update the states in the store of Redux
- Applied JWT middle-ware to back-end for authentication for security
- Worked on Routing, middleware, cookies and sessions in Express, ensured secure http requests
- Used nodemailer for sending mail to user for reseting password and otp to user
- Developed E-commerce Project (Aap ka Bazar App):-

- Design and developed app using React Native / Redux and React-Redux
- Worked on Life-cycle Methods, State, Props and Events to create interactive and stateful component, achieved routing using react-native Navigation
- Designed rich featured action creators and crossponding reducers
- Used React Axios to call Web APIs to fetch data from back-end and update the states in the store of Redux
- Worked on Routing, AsyncStorage and sessions and authentication
- Integrated React-native-reanimated for animation and payment system
- React-native-razorpay
- Deployed app on play store and app store and also test using test flight
- Developed E-Commerce Web :-
- Developed E-Commerce Web app using MongoDB, Express, React.js/Redux and Node.js and MaterialUI & Styled component
- Applied JWT middle-ware to backed-end for user authentication and login access
- Implementation of Redux and React-Redux Tool-kit for state management and cart functionality for user cart
- Used React Axios to call Web APIs to fetch data from back-end and update the states in the store of Redux
- Used of React-Router-Navigation to navigate from one page to other
- For Securing password used Crypto library to secure password by generating hash value.
