01/2022

### The Complete 2021 Web Development Bootcamp, Dr. Angela Yu

01/2021

## 🌐 Languages

- English
- Hindi

## 👛 Professional Experience

### Full stack developer, Starweaver Group

03/2022 – present

**Technologies** - React, Redux, MongoDB, NoSql, Node, Twillio, SendGrid, Stripe, Google Vision API, Passport, Firebase, ChartJS, Material UI v5, Git hub

- Fullstack React/Node Developer with 2 years of experience
- Specialist in React and React Hooks, concentrating on improving component performance, speeding websites to GTMatrix rating of 74.
- Responsible for implementing user page tracking and analytics standards into practice for 10000s of users.
- Created an automated messaging system with a scheduler.
- introduced a bespoke money system (Credits) for the website.
- Built an admin dashboard to generate reports and analyses user/client data
- Leveraged Node.js to enable email scheduling functionality
- Implemented permissions and access control in the admin dashboard

### React Developer Intern, Starweaver Group

12/2021 – 03/2022

During my 3-month internship, I honed my skills in React by contributing to frontend tasks like UI enhancements and functionalities. I also supported backend development in Node.js, assisting with database organization and email scheduling. This experience laid a strong foundation for my subsequent full-time role in React/Node development.

## 📁 Projects

### My Portfolio Website, Showcasing Expertise 📄

03/2022

- Crafted a sleek portfolio site showcasing skills and achievements.
- Incorporated engaging, user-friendly features for seamless navigation.
- Personalized design and content for a unique brand impression.

### Workout Tracker, Developed a React-based web application offering exercise routines and workout tracking functionality for users. 📄

05/2022

- Built personalized exercise planner and user-centric workout dashboard using React.
- Crafted responsive interface for smooth user experience in React.
- Managed workout data efficiently for effective tracking and analysis.

### Card Game, DuoMatch: Competitive Card Pairing Game 📄

08/2021

- Developed a two-player card game with point allocation upon successful card matches.
- Implemented interactive card-matching logic for player engagement.
- Enabled players to reveal and match cards, earning points for successful matches.
