

RAJIV SHARMA

PROFESSIONAL SUMMARY

I'm a careful and well-organized software developer, paying close attention to detail. I work quickly to meet deadlines and enjoy collaborating with teams to achieve success. With strong skills in software design and development, I'm proficient in popular programming technologies. My experience includes writing code and creating systems for different applications.

SKILLS

- React.js Framework
- Node.js Express Experience
- RESTful APIs/SQL
- RBDBMS
- GitHub collaboration
- HTML and CSS Knowledge
- JavaScript expertise
- SonarQube
- Unit Test Cases for Nodejs and Reactjs
- SQL Proficiency
- Algorithms Understanding
- Object-Oriented Programming
- Linux Operating Systems
- Vuejs

WORK HISTORY

JUNIOR SOFTWARE DEVELOPER 09/2022 to 06/2024
CodeFire Technologies

- Designed, developed, and implemented software applications for website based on analyzed requirements and understanding of industry technical standards.
- Tested programs and databases to identify issues and make necessary modifications.
- Collaborated with project managers to select ambitious, but realistic coding milestones on pre-release software project development.

SOFTWARE DEVELOPER 07/2024 to Current
CWS Technologies

- Participated in code reviews, ensuring adherence to established guidelines and promoting knowledge sharing among team members.
- Developed custom features for existing applications, tailoring solutions to meet client needs.

EDUCATION

BABU BANARASI DAS INSTITUTE OF TECHNOLOGY
B Tech, 01/2021
GPA: 7.7

NATIONAL PUBLIC SCHOOL

PROJECTS

Vertru: Spearheaded the development of a user interface and components for a web application in Project Vertru. Translated visual designs from Figma to a Vue.js-based frontend, ensuring seamless functionality and responsive user experience. Proficient in UI design, frontend development, and bridging the gap between design and development.

Finhaat: Key contributor in maintaining and enhancing the Finhaat application using Node.js and React technologies. Managed ongoing development tasks, ensuring smooth operation, and implemented new features to boost performance and user experience. Expertise in Node.js and React, driving application growth and maintenance.

Coal India: Integral member of the Coal India project as a full-stack developer from inception. Employed a comprehensive technology stack, including React for frontend, Node.js for backend, and an RDBMS for data management, with SonarQube for code quality assessments. Led unit test implementation for Node.js and React components which covered 80% of project, showcasing proficiency in end-to-end development and commitment to stringent code quality standards.

ONRG :Played a crucial role in the ONRG project as a code reviewer, focusing on reducing code complexity, eliminating duplicate code, and ensuring readability and maintainability for both frontend and backend in this duplicate code was cut down to 2.6% from 30%. Enhanced backend API response speed for optimized performance. Proficient in code review, code optimization, and performance enhancement.

HOBBEIS

I'm passionate about bikes because they offer a liberating sense of freedom, allowing me to ride at my own pace, requiring minimal space for storage, and providing the joy of easy maintenance.

I'm dedicated to workouts because they not only feel energizing but also keep me active, constantly motivated, instill discipline, and fuel my passion for staying healthy and fit.
