

Work Experience

Frontend Developer

Inkurb Web Solutions- Sep-2023 - Present

- Developed responsive and user-friendly web applications using React.js and Next.js, ensuring high performance and scalability.
- Utilized modern CSS techniques including CSS modules and styled components to enhance UI/UX.
- Integrated RESTful APIs and GRPC endpoints to fetch and manipulate data, enhancing application functionality.
- Conducted code reviews and provided constructive feedback to maintain code quality and adherence to best practices.
- Tech Stack: **HTML, CSS, React.js, Next.js, NxRepo, MUI, and AntD,RestApi**

Apprentice - Full-Stack MERN Development

Geekster - Jan-2022 - Aug-2023

- Achieved expertise in DSA by successfully solving over **300 coding questions** on the **Geekster** platform.
- Developed functional APIs such as **Social Media App** and **Crypto-Verse Application** during project work.
- Proficient in technical skills such as **TypeScript, React, Node, Express, MongoDB, and Rest APIs**

Projects

Recipe-Finder ([Github Link](#)) - ([Live Link](#))

- Designed and implemented a responsive React web app featuring real-time recipe search, add favorites recipe, and also delete, and API integration,
- Key Features: Real-Time Recipe Search, Favorites Management, Responsive Design, Component-Based Architecture, State Management with React Hooks, API Integration
- Tech Stack: **HTML, CSS, React, Redux Toolkit**

Crypto-Verse ([Github Link](#)) - ([Live Link](#))

- Developed a real-time cryptocurrency tracker using React. Utilized APIs to fetch and display live data, including price, market cap, and trading volume, for various cryptocurrencies.
- Key Features: View top trending cryptocurrencies, search for specific cryptocurrencies, view current price and past history in chart format, implementation of React concepts such as Functional Component, Axios, and React Redux
- Tech Stack: **HTML, CSS, React, Redux Toolkit**

Social-Media-API ([Github Link](#))

- Developed with Node.js, Express, and Mongoose, our social media application is a dynamic platform that allows users to connect and engage with others. It provides a seamless experience for creating profiles, sharing content, and interacting through likes, comments, follows, and messages
- Key Features: Social Media API built on Node.js boasts key features such as user authentication, Message history management, and support for mobile apps and web applications. CRUD operationmrraghav9412ns to manage users' information.
- Tech Stack: **Node, Express, MongoDB, Postman**

Skills

- Computer Language:** Java, JavaScript
- Frameworks / Libraries:** Nextjs, ReactJS, Redux, Node, Express, MongoDB, MUI, AntD
- Additional Courses:** Data Structure and Algorithms, OOPS
- Tools & Technologies:** GIT, Github, VS code, Postman, ChatGPT

Education

Year	Degree/Examination	Institution/ University	CGPA/Percentage
2022	M.C.A	Dr. APJ Abdul Kalam Technical	7.97 CGPA

		University Lucknow UP	
2020	B.C.A	Chaudhary Charan Singh University Meerut UP	63.0%

Achievements and Co-Curricular Activities

- I solved 200 Java+Dsa questions and got 6th rank out of 150 students. Leaderboard Link -[[mrraghav9412](#)]
- Achieved proficiency in JavaScript by completing over 250 coding challenges on freeCodeCamp, demonstrating my strong Coding skills and dedication to improving my abilities in the language. Freecodecamp Link - [[link](#)]
