EDUCATION

B. Tech.

DR. A.P.J Abdul Kalam
Technical University (2015-2019)

Intermediate

S.S.D Inter college (U.P. Board)- 2013

SKILLS

HTML 5
CSS
Sass
Javascript, JQuery
TypeScript
React
Redux, Redux Toolkit
Bootstrap
Tailwind css
Material UI
Next.js
Webpack
AJAX
DOM Manipulation
Rest API

Tools & Technologies :-

Version Control (Git,
BitBucket),
Package Managers (npm),
Postman
CI/CD
JIRA

Backend Familiarity:

Node.js
MongoDB

LANGUAGE

Hindi
English

RANJEET KUMAR

Frontend Developer (React Developer)

SUMMARY

As an experienced frontend developer, I excel in HTML, CSS, Sass, jQuery, Next.js, Rest APIs, and JavaScript, with specialized expertise in React and Redux. My focus is on creating dynamic user interfaces and responsive web applications. I am dedicated to innovation and staying abreast of the latest industry trends, consistently bringing creativity and a results-driven mindset to every project.

EXPERIENCE

Recognitive Technologies Pvt. Ltd - React Developer

July 2023 - Feb 2024

- Implemented component-based architecture within React framework, creating reusable UI components such as product listings, shopping carts, and checkout forms.
- Utilized state management tools like Redux or Context API for seamless application state handling, optimizing data flow and enhancing user experience.
- Collaborated with backend teams for smooth integration of frontend components with backend services, optimizing data fetching for improved eCommerce functionalities.
- Employed code-splitting techniques and lazy loading for React components to reduce website load times, enhancing user experience by 25%.
- Integrated authentication mechanisms, including OAuth and JWT, to secure user data and ensure secure access to the application,

IT4T Solutions Pvt Ltd - Frontend Developer(Web Developer)

Feb 2021 - Feb 2023

- Mentored junior engineers and interns by participating in regular pair programming, training sessions, and code reviews, improving team productivity by 20%.
- Developed responsive user interfaces for hotel and flight booking management software, ensuring seamless accessibility across devices.
- Implemented real-time data retrieval and synchronization through booking APIs for smooth reservation processes and accurate availability information.
- Collaborated with backend developer on the design architecture of the REST service.

WKD Technologies Pvt. Ltd - UI Designer

Jan 2019 - Feb 2021

- Ensured seamless rendering of UI designs across various browsers using HTML, CSS, and JavaScript, employing graceful degradation and progressive enhancement techniques.
- Designed and developed over 30+ websites, incorporating ADA compliance and Mobile-First design principles, and implemented optimization techniques to reduce loading times.
- Converted Figma, PSD, and XD designs into responsive websites with pixel-perfect implementation, doubling client satisfaction.
