PROJECTS

Pharmacy Inventory Management System

- A completely responsive website was created for pharmaceutical inventory management utilising HTML, CSS, Javascript, and PHP
- A system designed for a specific pharmacy inventory in which the owner manages the inventories of various medications and users may check the condition of available medicines
- **Technologies:** Html, CSS, Bootstrap, Javascript, PHP and Mysql
- **Role:** Full Stack Developer

Bus Management System

- Customers may use the web to book seats on available buses on various routes and even get their passes. They can also charter a whole bus for an event
- **Technologies:** Html, CSS, Bootstrap, Javascript, PHP and Mysql
- **Role :** Full Stack Developer

Event Webiste

- Created a site for student registration in our college's Inter School Event (Turf) at PCTE Institute of Engineering and Technology
- **Technologies:** Html, CSS, Bootstrap, Javascript, PHP and Mysql
- **Role:** Back End Developer
