## EDUCATION BACKGROUND

B.Tech ( Computer Science ) - 7.69 CGPA

**KIET GROUP OF INSTITUTIONS**

 August 2018 - August 2022

## PROJECTS

### Intelligence Payment App ( IPAY )

- Using IPAY customers just need to scan the barcode from the products then make items list by themselves and pay online. Just need to show the receipts at the time of exit from the departmental stores.
- Used **Java** for the backend and **Firebase** Realtime Database for the data storage of several departmental stores.
- Design UI by using **Adobe XD**.
- Implement **RecyclerView** with a custom Adapter to add and remove items from the list.
- Used **Razorpay** payment gateway for billing.
- Publish Research Paper at the 6th International Conference on Trends in Electronics and Informatics (ICOEI).

### Portfolio

- Created single page portfolio web application using **ReactJs, Javascript, HTML and CSS**
- Used **useState Hook** for creating contact form and handler for handling the form
- Used **React Router Dom** library for easy navigate and avoid page refreshing
- Used **React Lottie** library for importing json based animation pictures
- Used **React typical** library for text animation

## TECHNICAL SKILLS

**Languages** : C, C++, Java, HTML, CSS, JavaScript.

**Framework** : Spring Boot

**Libraries** : ReactJS

**Tools** : GitHub, Git, Postman, Jira, Swagger, Adobe XD, Eclipse, Visual Studio Code.

**Database** : MySQL

**Operating System** : Mac, Window.

## WORK EXPERIENCE

### Wipro | Project Engineer

 May 2022 - Present

- Working on a Singapore government project Land Transport Authority as a **developer**
- Worked on **SpringBoot** project with **Java**
- Add Model mapper methods to reduce code
- Created admin portal using **HTML, CSS & JavaScript**
- Created multiple screens for dashboard using **ReactJS**
- Performed **CRUD** operation using **Hooks** in dashboard screen for maintaining customer data
- Used **React Router Dom** library for easy navigate and avoid page refreshing
- Used **React Slick** library for carousal component
- Fix bugs in get, post, put, and delete **Rest API's**
- Test Rest API's on **Swagger** and **Postman**
- Worked in **Agile** methodology
- Used the **Jira** tool to know more about bugs

### Wipro | Oracle App Intern

 February 2022 - May 2022

- Created **Library Management** System using oracle.
- Used the oracle **form builder** to create a form for the app and oracle **report builder** to generate the report.
- Used **MySQL** to create database for the app.
- Created Book Issue, Return, and Renew Tables.
- Used **PLSQL** to write queries in the oracle form builder.
- Add Functionalities like auto-generation id, penalty calculation and LOVs for member id and member name
