Languages & Frameworks

JavaScript
HTML
CSS
React
Node JS
Nest JS
Postgres SQL
Dbms
Mongodb
Express
Object Oriented Programming
Data Structures
React native

Education

BTECH (mechanical)

2017-07 - 2021-05

Inderprastha Engineering College

- 7.2 CGPA

12th: Intermediate Board

2015-04 - 2017-05

Ralli International school

- 66 %

10: Secondary School Certificate Examination

2013-06 – 2015-03

Ralli International school

70%

NOTES

(<https://github.com/Amitrawat21/NoteApp>)

- Developed a notesApp **React** as frontend framework.
- User can delete the notes
- User can add, delete, search the note
-

REALTIME WEATHER APP

(<https://github.com/Amitrawat21/WeatherApplication>)

- Developed a SPA using **React** as frontend framework.
- Used a real-time open-source weather API
- User can input any city name in the search bar and gets the result as response.

FOODAPP WEBSITE

(<https://github.com/Amitrawat21/WeatherApplication>)

- Developed a food App using **React**
- We can order our favourite food from this website

POCKETXTRA MOBILE APPLICATION

- THIS APPLICATION IS USED TO EARN MONEY IN EVENTS
- CREW APPLY FOR JOB LIKE BODYGUARD, WAITER ETC
- Organizer can create event
- Developed This application using react native and node

RESPONSIBILITIES

- Full stack development along with problem solving training
- Tech Stack learned - **PERN** , **MERN**
- Polishing my skills & getting hands on experience on Real Time projects
- Middlewares (Authentication and Authorization using open-id connect)
- Front end development along with problem solving training
- Evaluated the structure and design of web pages
- Used best practice in HTML, CSS, JavaScript, React and Redux to develop a dynamic site
- Debugged codes to make sure they are working fine
- Learned front-end object-oriented programming to develop the responsive web sites
- Efficiency with popular software such as **VS code** and **Sublime** text editor
- Performed daily operations and designed interactive web sites

- This handles dynamic building of web pages based on page
 - definition, designs, validations, events via JSON entries by using
 - design patterns and design principles
 - Technologies learned - JavaScript, React, Node, DSA
 - Designed and implemented dynamic web applications
 - Polishing my skills & getting hands on experience on Real
 - Time projects.
-
