Seeking employment that suites my qualifications in a company or organization where attention to detail, team collaboration, hard work and result orientation are emphasized, and grants me the opportunity to grow and gain some experience.

3.1Years of Experience with Manual Testing

Technology: Database Testing, Manual Testing, API Testing, UNIX, SQL queries, XML, JSON, Postman

Tools Used: SQL Server, JIRA, Postman, Microsoft Teams

Domain Knowledge: HealthCare

PROFESSIONAL SYNOPSIS

- > Total 3.1 Years of experience in Software Testing and Quality Assurance.
- Prepared test scenarios and designed test cases and participated in test case review.
- Executed test cases and report the defects.
- Knowledge of All phases of the Software Test Process includes Test Planning, Test Design, Test Execution and Test Closure.
- Design the Traceability Matrix to map Business Requirements with prepared test cases.
- Performed different types of testing like Functional Testing, Regression Testing, Retesting, and Database Testing.
- > Execute the test case to meet customer requirement.
- Excellent understanding of Defect Life Cycle.
- Participate in scrum meeting to discuss about project progress report every day.
- Expertise in defect tracking process using defect management tool like JIRA.
- Good knowledge of SQL and UNIX commands
- ➤ Worked on Healthcare Domain as Software Test Engineer.
- Experience in API Testing using Postman tool.
- Complete idea about SDLC, and Familiar with Software Testing Life Cycle (STLC).
- Experience on Agile Scrum Methodology process in the project.
- Performed Regression Testing, Manual Testing, UAT Testing.
- Good Knowledge on Waterfall & V-Model
- Responsible for Test Case Writing, Test Case Review, Test Case Execution, Bug Tracking and Reporting.

CORE COMPETENCIES

| Operating Systems | Windows 10, XP, UNIX, MacOS |
|-----------------------|---|
| RDBMS | MY-SQL, SQL Server |
| Methodology | Agile Scrum, V-model, waterfall, Spiral |
| Defect Tracking Tools | JIRA, |
| Technical Skills | C, C++, UNIX, SQL,PL/SQL, Outlook |
| Others | MS Excel, MS Word, MS Power Point, Snipping tool, VPN |
| API Tool | Postman |
| File Handle | XML, JSON, CSV, TXT |
| Communication | Microsoft Teams, Skype, Zoom |

EDUCATION DETAILS:

Bachelor of Engineeringin 2018 From Government College Of Engineering Chandrapur, Gondwana University Maharashtra.

PROFESSIONAL WORK EXPERIENCEDETAILS:

Currently working as Software Test Engineer with Wipro Technology Pune since February 2019 to till date.

> Received appreciation for Good manners from Wipro Technologies.

PROJECTS UNDERTAKEN

Project-USA Health

Project Name: USA Health

Customer: USA Providers & Health system

Vertical: HealthCare
Project Description:

Beginning with the founding of the USA College of Medicine in 1973, USA Health stands as the only academic medical centre along the upper Gulf Coast. It provides excellent healthcare to the region's diverse population at USA Health University Hospital and the renowned USA Health Children's & Women's hospital, one of only five freestanding hospitals in the country dedicated to the healthcare of children and women. Continuous research and technological advancements keep USA Health Mitchell Cancer Institute at the forefront of cancer treatment and outcomes. The health system employs 3,900 clinical and nonclinical staff members, including some 180 academic physicians who serve dual roles treating patients and teaching the next generation of medical doctors.

Roles and Responsibilities:

- Prepared Requirement Traceability matrix
- Interaction with development team in Defect fixing process and Regression testing
- > Test Execution and defect reporting in defect management tool
- Worked on Smoke Testing, Sanity Testing, Retest, Regression Testing, Compatibility Testing, User Acceptance Testing, Adhoc Testing & Negative testing.
- ➤ Knowledge of Defect Reporting, Defect Tracking, and complete Defect Life cycle.
- ➤ Worked in Agile development environment
- Good experience in Database using SQL
- > Design the Traceability Matrix to map Business Requirements with prepared test cases.
- Analyses Software Requirements Specifications Document
- Preparation of Test Scenarios and Test cases
- Conduct Test Case Review and send the review comments to teammates
- Performed Database Testing at Application level

I hear by declare that the data furnished above by me are true to the best of my knowledge.
