Education

Year	Degree/Examination	Institution/Board	CGPA/Percentage
2019	Bachelor of Computer Applications	National institute of Management and Engineering Studies	73.5%
2015	Intermediate (Class XII)	Bihar School Examination Board	63.0%
2013	Matriculation (Class X)	Uttar Pradesh Board	73.0%

Experience

Skilled front-end developer with 1.10 years of experience, proficient in ReactJS, delivered projects on-time and to client satisfaction.

Meon Technologies pvt ltd | Frontend Developer

December 2022 - Present

- Developed web applications using React, HTML, CSS, and JavaScript.
- Collaborated with team members to design and implement user interfaces for client websites.
- Implemented responsive designs to ensure optimal user experience across all devices.
- Utilized third-party APIs to integrate data and functionality into web applications.
- Conducted code reviews and provided feedback to maintain code quality and consistency.

Servewell Digital Private Limited | Frontend Developer

October 2021 - May 2022

- I worked using the Elementor editor on WordPress.
- Integrating with third-party APIs.
- Created new features for existing WordPress products.
- Building out responsive layouts.
- Customizing Various free and premium themes

Internship and Certifications

Newton School | Newton School Bootcamp

February 2022 - October 2022

- Full Stack Web Development and Problem Solving
- Technical Stack Learnt: Java, HTML, CSS, JavaScript, React
- Participated in various coding competitions held by Newton School
- Worked on various Projects.

Projects

Meon Support Tool | Meon Technologies

February 2023 - March 2023

Features

- Developed Meon Customer Support, a customer support facility for Meon Technology that provides technical assistance and resolves software bugs for clients.
- Implemented features such as direct submission of bug reports and feature requests, which streamlined the bug reporting process and improved customer satisfaction.
- Worked closely with the customer support team to ensure they had the necessary tools and information to resolve issues quickly and effectively.
- Contributed to the development of scalable and high-quality software systems through effective collaboration and communication with the team.
- Helped to ensure that Meon Technology's clients have access to the technical assistance they need to succeed, which positively impacted customer satisfaction and retention.
- **Tech Stack** - ReactJS, Material UI, MUI Table, Redux Toolkit
- **Contribution** - User-Friendly UI, API Integration, and Super Admin.

Meon E-sign Tool | Meon Technologies

February 2023 - April 2023

Feature

- Developed an e-Sign tool with multiple types of dashboards, including prepaid, postpaid, and Super Admin dashboards.
- Designed and implemented a user-friendly interface for tracking e-Sign status, credit management, and data visualization.
- Successfully integrated ReactJS, RESTful APIs, and database management technologies to create a robust e-Sign tool.
- Worked collaboratively with cross-functional teams to ensure the tool met user requirements and quality standards.
- Demonstrated strong problem-solving skills and attention to detail in troubleshooting and resolving technical issues.
- **Tech Stack** - ReactJS, Material UI, MUI Data Table, Redux Toolkit.

Features

- User-Friendly UI
 - API
 - Features to be added
 - Login Auth. Products
 - Payment getaway.
-
- **Tech Stack** - React js, CSS, Styled-component, Form Spree, Context API, Axios.
 - **Contribution** - This project is entirely inspired by e-commerce sites like Myntra, Amazon, Flipkart, etc. where customers may add things to their carts and modify their order quantities.
All of the products of detail are rendered into our user interface after being fetched from an API.

Crud with React js | Self [\(link\)](#)

September 2022 - September 2022

Features

- Pagination
 - Responsive.
-
- **Tech Stack** - React Js , Material Ui .
 - **Contribution** - Users can carry out CRUD (create, read, update, and delete) actions on this project.

Weather Application | Self [\(link\)](#)

September 2022 - October 2022

Features

- API
 - Responsive design according to device width.
-
- **Tech Stack Used** - HTML, CSS, CSS(media queries), JavaScript(fetch method).
 - **Contribution** - In this project, the Open Weather Map API is used to retrieve information about the city's current weather. There is a background image that changes depending on the weather.

Show review with TMvaze API | Self [\(link\)](#)

September 2022 - September 2022

Features

- Responsive.
-
- **Tech Stack Used** - HTML, CSS, CSS(media queries), JavaScript Functions, React, Material UI , useState, useEffect, TMvaze API.
 - **Contribution** - This project is comparable to a website like IMDb. Users can search for reviews of shows based on actors and show titles.

Myntra Clone | Self [\(link\)](#)

September 2022 - September 2022

Features

- It is a Responsive Website
 - Search bar
 - Filter
 - Add To Cart.
-
- **Tech-Stack Used** - HTML, CSS, JavaScript, Bootstrap.
 - **Contribution** - It is a replica of the Myntra website. There is a lot of functionality, such as a search bar. Users can search for your t-shirt by name, and there is also a filter feature.
Users can filter prices from high to low or low to high, and they can also add items to their shopping cart.

Skills

Computer languages	Java, CSS, HTML, Javascript
Software Packages	React, Bootstrap
Soft Skills	Communication Skills, Time management, Teamwork, Responsibility

Co-Curricular Activities

- Traveling in Hills.
- Playing Cricket and BGMI.
- Participated in Newton's coding challenge April 2022 and secured the Rank : 980.
