## SUMMARY

Aspiring MERN Full Stack Developer with a solid understanding of building and deploying web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in creating responsive user interfaces, managing databases, and implementing RESTful APIs. Passionate about coding, problem-solving, and learning new technologies. Eager to contribute to team projects and deliver efficient, user-focused solutions in a collaborative environment.

## TECHNICAL SKILLS

- **Languages:** C, JAVA, Python, JavaScript
- **Frontend Development:** React.js, HTML5, CSS3, Bootstrap, Tailwind CSS
- **Backend Development:** Node.js, Express.js
- **Database:** MongoDB, SQL, Postman
- **Tools:** MySQL, Excel, PowerPoint, Figma
- **Platforms:** Android Studio, Intellij IDEA, Visual Studio, PyCharm
- **Soft Skills:** Rapport Building, Problem-Solving, Teamwork, Communication, Leadership, Time Management

## PROJECTS

### Food Delivery Website

- A food ordering and delivery platform connects customers, restaurants, and drivers for seamless meals on demand. Customers can browse local restaurants, menus, reviews, photos, and deals. A persistent cart allows ordering from multiple places in one checkout.
- **Technologies:** Food Delivery Website using a full stack web application. It uses the MERN stack, which includes React.js, Express.js, API, and Node.js, MongoDB, Postman.

### Waste Food Management System

- Waste Food Management System is a web based technology which manages foods. This web application provides interface between food donor and food require this application food donor enter their food quantity details and addresses.
- **Technologies:** Waste Food Management System using a full stack web application. It uses the MERN stack, which includes React.js, MongoDB, Express.js, and Node.js.

### E-Commerce Platform

- E-commerce shops have become part of our daily lives Technological advancement has made it possible for people to sit in the convenience of their homes and still shop online without going to a physical shop.
- **Technologies:** E-Commerce Platforms using a full stack web application. It uses the MERN stack, which includes React.js, MongoDB, Express.js, and Node.js.

### Event Management System

- Event Management System is a process of organizing a professional and focused event, for a particular target audience. It involves visualizing concepts, planning budgeting,organizing and executing events such as wedding,musical concerts, birthday celebration, theme parties etc.
- **Technologies:** Event Management System using a full stack web application. It uses the MERN stack, which includes MongoDB, Express.js, React.js, and Node.js, HTML, CSS.

## EDUCATION

### Master of Computer Applications
**Galgotias University**  Oct 2022 - June 2024
📍 Greater Noida
CGP **7.3** / 10

### Bachelor of Science in Information Technology
**Magadh University**  Aug 2018 - Mar 2022
📍 Gaya, Bihar
CGP **7.2** / 10

### I.Sc. (12th) in Mathematics
**Surya Narayan Inter College**  June 2016 - July 2018
📍 Aurangabad, Bihar
Percentage **54.2** / 100

### SSC (10th)
**Raja Jagannath High School**  Mar 2015 - June 2016
📍 Aurangabad, Bihar
Percentage **55** / 100

## CERTIFICATION

**Full Stack Web Development (Bharat Intern)**
**Technologies:** React, Node.js, Express.js, CSS, MongoDB  July 2023 - Aug 2023

**Java Development (Techno Hacks)**
**Technologies:** JAVA, Spring Boot, Apache, IntelliJ IDEA, JDBC  Aug 2023 - Sep 2023
