ABOUT ME

A dedicated Front-end Developer with expertise in HTML, CSS, JavaScript, and ReactJS, passionate about creating user-centric websites and enhancing user experience. Skilled in collaborative work and problem-solving, with a commitment to staying updated on industry trends. Proficient in modern JavaScript frameworks, particularly React, with a keen eye for creating intuitive and responsive user interfaces

EXPERINCE

CodersVoice

Frontend Developer

📅 OCT 2023 - April 2024 📍 Kolkata

- As a Frontend Developer at Coders Voice from July 2023 to April 2024, I was instrumental in creating user-friendly, responsive designs that significantly improved the user experience across the company's digital platforms.
- My role involved collaborating closely with UX/U designers to translate visual concepts into functional and engaging web applications.
- I took the lead in implementing new features and optimizing existing ones using a variety of technologies including HTML5, CSS3, JavaScript, and React.js.

OPC PVT LTD

Web Developer Intern

📅 JUN 2022 - AUG 2022 📍 New Delhi

- During my tenure as a Web Developer Intern at OPC PVT LTD from June 2022 to September 2022. I was actively involved in various aspects of web development, from conceptualization to deployment.
- My primary responsibilities included assisting in the design and development of user-friendly websites, ensuring optimal functionality and responsiveness across different devices.
- I collaborated closely with the senior development team to implement new features based on client specifications, contributing to several projects that enhanced user engagement and experience.

PROJECTS

Devine-Social media website

- A social media website developed using React. Features include [list notable features, e.g., user profiles, messaging, real-time updates, etc.]

<https://github.com/Kunalhats/Devine>

Spotify

- Developed a fully functional music streaming application inspired by Spotify. Created dynamic and responsive UI components using React.

<https://github.com/Kunalhats/Spotify>

NotesHub

- Crafted a web-based solution enabling effortless note-sharing between students and educators, with built-in administrative functionalities for streamlined note approval
