ABOUT ME:

I am a Front End Developer with 6+ years of professional experience. My passion is solving problems through design thinking and ultimately design solution that makes users happier. Having worked with Research Institute, Service Company & Startups, I have gained hands on experience of various UI/UX methods of all three phases of User Centered Design Namely Research, Design and Evaluation. I have also got to know different work culture, people and places in India. I was a part of more than 30+ project especially for UI/ UX Design & Research services for both web & mobile. I am looking for exciting projects where I can design solution based on information ecology that maps user's requirements and business goals.
