Work Experience

Trycon Technologies Private Limited

Team Lead, Engineering | Oct 2022 - Present
- Directed a team of 3+ developers, achieving a 15% reduction in feature latency
- Implemented features like Custom Batches in bulk allowing upto 100,000 QR Codes files generation using Redis Queue, improving processing efficiency.
- Implemented features like Logo Caching that allowed to cache URL for 10 mins improving the latency and processing efficiency.
- Led cross-functional teams for feature additions, enhancements, bug fixes and security(VAPT) related enhancements.
- Conducted page performance optimizations to pass Core Web Vitals
- GA4 Events tracking setup to analyze the user and traffic acquisition

Senior Software Engineer | Oct 2020 - Sept 2022
- Developed and deployed a QR API App, Website, and Swagger Documentation from scratch using Node.js and Vue.js on an AWS instance allowing users to generate custom-designed Static QR Codes programmatically.
- Integrated Stripe Payment Gateway, enhancing the payment process.
- Revamped QR Batch App Frontend using VueJS, improving user interface, experience and smooth state management using VueX.
- Closely orchestrated with team members, accomplished code reviews, deployments, feature additions and bug fixes.

Full Stack Developer | Apr 2018 - Sept 2020
- Developed and deployed a QR Batch App and Website from scratch using NodeJS and AngularJS on an AWS instance allowing users to download Static QR Codes in Bulk upto 100,000 in different Image formats like PNG, JPG, SVG, EPS, PDF, DXF.
- Integrated Paddle payment gateway, streamlining payment processes

Web Developer | Jan 2017 - Mar 2018
- Developed frontend UI with AngularJS
- Backend Development using NodeJS
- Set up Google Analytics and Mixpanel events tracking, enabling better user behavior analysis.

Educational Background

Bachelor of Technology

ABES Engineering College, Ghaziabad, Uttar Pradesh
Aug 2013 - Aug 2017
- Computer Science and Engineering

Skills

Technical Skills

- Node.js
- Vue.js
- AWS
- MySQL
- Javascript
- Bootstrap
- Unit Testing
- JWT
- HTML/CSS
- Express.js
- GIT
- Sequelize.js
- Payment Integration
- CI/CD
- Rest APIs

Tools/Softwares

- Google Analytics
- Mixpanel
- Mandrill
- Stripe/ Paddle
- Webflow
- JIRA/ Confluence
- Github/ Bitbucket
- Slack
- Google Suites
- SEO
- Fabric.js
- Sprinto
- VWO(A/B Testing)
- Sentry
- Bablic
- Grafana
- Sendy
- Zapier
- Wordpress
- Postman
- Cloudflare
- Swagger
- ImageMagick
- Redis
- Gulp

Languages

- English (Fluent)
- Hindi (Fluent)

Soft Skills

- Good Communication
- Problem Solver
- Leadership and Team Work

Additional Information

- Received Leadership Award - Product Development
- Received Employee Loyalty - 5 Years
- Received Spotlight Award - May 2024
