SUMMARY

I'm a Master's student in Computer Science with a focus on front-end development, I recently completed an internship as a React developer. Skilled in React, JavaScript, C++, Java, DSA and SQL. I work well under pressure and enjoy problem-solving. I'm eager to apply my skills and continue growing in a professional setting.

EDUCATION

Galgotias University

Master of Computer Applications

Greater Noida, Uttar Pradesh

2021 – 2023

- Cumulative CGPA: 8.2/10.0
- Courses: **Java, Frontend Development**

Maltidhari College, Naubatpur

Bachelor of Computer Applications

Patna, Bihar

2018 – 2021

- Cumulative Percentage: **69%**
- Courses: **Data Structures and Algorithms, Database Management System**

EXPERIENCE

software engineer

uxdlab software pvt.

Noida, Uttar Pradesh

July 2024 – Nov 2024

- As part of my internship, Created an interactive profile page with Firebase Storage for fast image uploads and real-time display updates.
- Implemented responsive design using Bootstrap and CSS, ensuring accessibility across different devices.
- Integrated Firebase real-time database for instant profile updates and used Firebase Authentication for secure user login and profile management.
- Built dynamic, state-driven React components for smooth, intuitive user interactions.
- Used Firebase Authentication to manage user logins and securely update profile information, including password changes.
- Collaborated with backend developers to integrate API endpoints and utilized Git/GitHub for version control, improving team collaboration and codebase management.

TECHNICAL SKILLS

- **Programming Languages** : Java, C++.
- **Web Development**: VS Code, HTML, CSS, JavaScript, React.
- **Other Tools**: MySQL, Firebase, Git/GitHub, MS Word, PowerPoint.

CERTIFICATIONS

Intermediate Knowledge of Java, SQL, Python, Problem Solving, and JavaScript

- Online course - HackerRank

Intermediate Knowledge of C, C++

- Online course - Great Learning.

PROJECTS

E-commerce

- **Developed** a full-stack e-commerce platform using **React**, **Firebase**, and **Tailwind CSS**.
- Implemented **dual login** for customers and admins with distinct dashboards.
- Designed **product listing, search, and cart management** with **React Context Api** for state management.
- Created **user dashboard** to view purchase history; **admin dashboard** for product, order, and user management.
- Integrated **real-time updates** in product, order, and user data across the application using Firebase.
- Utilized **React Hooks** to optimize component performance and maintain efficient state management.

Portfolio

- In this project serve as a visual representation of your skills, talents, and accomplishments.
- Enable you to showcase your past projects, achievements, and professional experience.
- In this project I have used **Html**, **Css**, **Javascript**, **Bootstrap**.

Weather

- Built a dynamic weather website that fetches real-time weather data through an API.
- Designed a user-friendly interface to display relevant weather information (temperature, humidity, conditions, etc.) based on location input.
- Developed skills in handling API requests and rendering data dynamically on the front end.
- Technologies used: **React**, **Css**, **Bootstrap**.

PERSONAL STRENGTH

- **Self-Motivation**
- **Problem-Solving Skills**
- **Collaborative Team Member**

ADDITIONAL INFORMATION

- **Languages:** Hindi, English
