TECHNICAL SKILLS

- <u>FrontEnd</u> - JavaScript, Reactjs, Nextjs14, Redux, TypeScript, HTML5, CSS3, Tailwind
- <u>BackEnd</u> - Nodejs. Expressjs, JavaScript, TypeScript. Chai, Mocha
- <u>DataBase</u> - MySQL, MongoDB, Postgresql.
- Deployments - Docker, Kubernetes

EXPERIENCE

BillEasy, Mumbai • *Full-Stack Developer*   *(01/2025)* – Present
- Worked on the FrontEnd part for the Shopify and Dashboard.
- Worked on the integration part using Reactjs.
- Worked on optimizing APIs in backend.
- Build the APIs for BackEnd using Nodejs and Typescript.
- Worked with data migrations on Postgresql.

Atomos Technologies, Mumbai • Full-Stack Developer   *(07/2023) – (08/2024)*
- Led the development life cycle for the ATS (Applicant Tracking System) project, utilising JavaScript,Node.js, Express.js, React.js, MongoDB, and Tailwind CSS.
- Enhanced code security and integrity by implementing robust authentication and authorizationmechanisms.
- Instituted Git version control for seamless code management and collaboration within the team.
- Write unit tests to ensure code quality and functionality.

DollarBird, Mysore • Full-Stack Developer   *(07/2022) - (06/2023)*
- Led the development of backend APIs for the project (WCMP), expanding my experience in Node.js and Express.js.
- Wrote the Unit test cases for the same project.
- Utilized SonarQube to optimize code quality and implement security best practices.
- Worked on integration part using React.js

FunctionUp, Remote • BackEnd Developer Trainee   *(01/2022) - (06/2022)*
- Completed a comprehensive training program, mastering back-end development using Node.js, Express.js, and MongoDB.
- Applied my skills to develop APIs for an e-commerce project, gaining practical experience.
- Gained experience with AWS S3 cloud storage and caching mechanisms.

PROJECTS

ATS (Applicant Tracking System):@Atomos- FrontEnd and BackEnd Development.
Tech Stack: JavaScript, Node.js, Express.js, Reactjs, MongoDB, Tailwind CSS
- Build the project to track the applicant's applications for the client and the applicant.
- FrontEnd using Reactjs for creating intuitive, interactive and responsive user interfaces.
- Backend using Node.js, Express.js for building database operations.
- Database management using MongoDB, for storing and utilizing the data as needed.

KnowledgeBase Manual: @Atomos- FrontEnd and BackEnd Development.
Tech Stack: TypeScript, Node.js, Express.js, Next14js, MongoDB, Tailwind CSS
- Developed a comprehensive Knowledgebase Manual application using Next.js and TypeScript,showcasing my advanced front-end development skills.
- User account, access control system and editing tools.
- Search and organization features (e.g., categories, tags, collections).
- FrontEnd using Next14 for interactive and responsive user interface.
- Backend using Node.js, Express.js and TypeScript for database operations.
- Database management using MongoDB, for storing and utilizing the data as needed.

Web Content Market Project: @DollarBird- Backend Development.
Tech Stack: JavaScript, Node.js, Express.js, MySQL.
- Build the platform project for the client where the client and the freelancers can approach each other for the requirements. (like: Copywriting).
- Backend using Node.Js, Express.Js, JavaScript for the Database operations and integration.
- Database management using MySQL, for the storing and managing the data for the clients.

EDUCATION AND CERTIFICATIONS

Invertis University, Bareilly (U.P) | Bachelors of Technology | July 2015- July 2019
