

RISHI YADAV

+91-9817837093

rishiyadav9817@gmail.com

Summary

Around 3 Years Of Experience In Computational Programming , Have Been Working On Analyzing Requirements , Designs , Development And Implementation Of The Projects. Experienced In Node, Express, Mongodb, Typescript, UI Technologies , Python ,C and Javascript.

Skills

Frontend Technologies

- React Js/Redux
- Javascript
- HTML5 / CSS3 /Bootstrap

Backend Technologies

- Node Js / Express Js
- Typescripts
- Nest Js

Databases And Cloud

- Monogodb,
- PostGres
- AWS

Devops

- Docker

Scripting Language

- Python

Programming languages

- C/C++ ,
Python, Javascript

Experience

vExecution software pvt. ltd

MERN Developer

JULY 2023 - PRESENT, MOHALI

- Design and developed the complete Customer Relationship Management .
- Developed And Integrated Multiple Services Like Food Ordering ,Service Providers Into One Application For The Start Up.
- Developing Management Layer Services And Apis.
- Taking The Technical Ownership As Well As Accountability Of The Complete Project , Working Through Its Functionalities , Performance And Scalability.
- Building Consensus Among The Different Teams On The Software Development Projects.
- Taking Care Of Client's Motive And Delivering The Presentation At Different Stages Of Project Development Cycle.
- Facilitate Discussions Among The Database Developers And Among Different Developers To Exchange The New Ideas.
- Understanding The Client's Vision , Discussions And Making Them Feel Comfortable With Satisfactory Ideas And Solutions.
- Investing In Development Of Team In Terms Of Knowledge And For Future Competencies. Use Tecnology Node js, Reactjs, Monogodb, Expressjs.

Airai Games Technology / MERN Developer

JANUARY 2023 - JULY 2023, MOHALI

- Provided Counseling And Support To Working Professionals In Their Technology Stacks.
- Understanding The Projects On NODE JS Applications, Python Scripting Used Web Scraping And Guiding Working Professionals To Achieve Their Goals.
- Mentoring Multiple Batches Of Students From Different Universities And Taking The Workshops At Universities.
- Built a turn-based strategy game with leaderboard functionality using the MERN stack.
- Designed a secure authentication system using JWT and bcrypt.
- Conducted performance optimization to ensure a seamless gaming experience across devices. Deployed the application on AWS for a scalable and secure environment.

MXR Technology / MERN Developer

SEP. 2021 –Jan. 2023, MOHALI

- Designed and managed RESTful APIs with Node.js and Express.js for efficient data communication.
- Created MongoDB schemas and optimized queries for better application performance.
- Built dynamic and reusable components for a modern e-commerce platform.
- Taking The Technical Ownership As Well As Accountability Of The Complete

- Project , Working Through Its Functionalities , Performance And Scalability.
- Integrated Redux for state management across complex modules.
- Collaborated with backend teams to fetch and render API data efficiently. Use Technology reactjs, nodejs, mongodb, expressjs.

Education

Subharti University Meerut/ PG In Mast e r Of Computer Application
JUNE 2019 - JULY 2022

SJMU University Kanpur/ Bachelors In S c i e n c e
JULY 2015 - JULY 2019

Personal Dossier

-
- **Date of Birth** : 06 JULY 1998
 - **Current Address:** Kannauj UP
 - **Linguistic Abilities:** Hindi,English.
 - **Hobbies:** Sports, Travelling.
