WORK EXPERIENCE

Full-Stack Web Development Internship - IntrnForte, Noida, India

04/23-06/23

- Employed React.js and JavaScript for the development of dynamic front-end solutions, ensuring a user-centric approach to interface design
- Utilized Node.js to implement efficient server-side solutions, contributing to enhanced full-stack development capabilities.

Web Development Internship - Vatsalya Seva Sansthan, Bareilly, India

10/21-11/21

- Played a key role in developing a login portal for a non-governmental organization (NGO) website, enhancing its functionality and accessibility.
- Designed the portal to cater to both clients and administrators, fostering streamlined and secure interactions for all users.

PROJECTS

NFT Website

- Created a visually compelling NFT landing page using SCSS/SASS, showcasing modern design trends and responsive layout.
- Implemented interactive UI elements featuring modern animations, ensuring mobile responsiveness and an aesthetically pleasing design.

Stack Overflow Clone

- Developed a Stack Overflow replica website, closely mirroring its user-friendly interface for an authentic user experience.
- Integrated a secure UPI payment gateway to facilitate convenient and safe transactions, providing access to premium content and features.

Minimalist E-commerce Website

- Developed a minimalist e-commerce website using React and JavaScript, focusing on user-friendly navigation and a seamless shopping experience.
- Designed a modern, responsive UI with React and CSS, enhancing product visibility and user engagement.

Car Rental Website

- Built a responsive car rental website using React and JavaScript, enabling seamless vehicle search and booking.
- Enhanced user experience with intuitive UI and boosting booking efficiency.

Automated personality Classification (10/2022-04/2023)

- Automated personality classification utilizing the Big Five personality traits, encompassing Openness to Experience, Agreeableness, Extraversion, Neuroticism, and Conscientiousness.
- Developed the Front-end layout for the project using ReactJS.
