SUMMARY

Results-oriented Software Development Developer with 2+ years of experience driving efficient front-end development. My expertise extends to optimizing APIs and efficiently managing state with advanced technologies like Context API and Redux Toolkit. I am skilled at managing intricate data flows and have a strong ability to use technological innovations to enhance user experiences. Skilled at creating a cooperative team atmosphere.

SKILLS

Frontend Development: HTML | CSS | JavaScript | React | TypeScript | Redux | Material UI.

Backend Development: NodeJS | ExpressJS | GraphQL | MongoDB.

Version Control & Collaboration: GitHub.

Data Structures & Algorithms: Understanding of fundamental DSA, enhancing problem-solving abilities and code efficiency.

EXPERIENCE

03/2023 - Present — Full Stack Developer — Misemind Technologies Pvt. Ltd.
- Spearheaded the development of responsive web designs, ensuring seamless user experiences across various devices, utilizing React, Angular, Ant Design (antd), and Styled Components within a TypeScript environment.
- Formulated and implemented responsive email templates for various campaigns, ensuring compatibility across multiple email clients and devices.
- Implemented and integrated Stripo and CKEditor tools for content creation and modification, facilitating multilingual support to enhance user experience and content accessibility.
- Executed the development of efficient infinite scrolling, optimized through API enhancements. Utilized Context API for state management and incorporated Redux Toolkit to handle intricate data flows.

8/2022 - 1/2023 — Frontend Developer — Parakh Online Pvt. Ltd.
- Served as a standalone UI developer specializing in React, leading the entire website migration.
- Enhanced website responsiveness through the integration of Bootstrap and tailored CSS designs, coupled with the adoption of Redux for efficient state management.
- Established and integrated advanced Google Maps features, including clustering, path stop points, and various other functionalities.

2/2022 - 7/2022 — Frontend Developer (Internship) — Parakh Online Pvt. Ltd.
- Developed company profile website using HTML, CSS, Bootstrap, JavaScript and jQuery.
- Converted figma designs to responsive web pages along with animations.
- Created a scoring dashboard, Student/Teacher registration forms with validations, graphs for display progress and history trail.
- Featuring multiple cards displaying details of different courses, utilizing reusable components, routing, and Context API for API integration.

PROJECTS

2022 — Weather Forecasting — Self
- Created a website using HTML, CSS, JavaScript, React and Bootstrap.
- Ensuring seamless functionality and an optimal viewing experience with real-time weather details.
- Link to the website

2021 — Profiler — Collage
- Constructed a web application using ReactJS, Bootstrap, Reactstrap, HTML, and CSS.
- Designed the UI and UX of the website.
- Link to the website

EDUCATION

2020 - 2022 — Master in Computer Applications — Chandigarh University
Mohali, Punjab

2017 - 2020 — Bachelor in Computer Science and Engineering — Teerthanker Mahaveer University
Moradabad, Uttar Pradesh
