ACHIEVEMENTS

Freelancer at AdvanceQT (09/2023 - Present)

Creating website layout/user interfaces by using standard HTML/CSS practices. Integrating data from various back-end services and databases. Access Link- <https://advanceqt.com/search/listing?category=doctors&q=sparsh>

E-Commerce

(06/2022 - 01/2023)

Website(SportsSphere)

-Sports-sphere is a modern e-commerce website built using Angular. It allows user to browse, search for, and purchase online. The website includes features such as product listings, a shopping cart user authentication, and a secure checkout process.

~Technologies Used-

Front-end: Angular --- Languages: TypeScript, HTML, CSS ---

-Tools: Angular CLI, RxJs, AngularRouter, AngularRoute, AngularForms and validations.

~Contributions-

Product Listings-Created a dynamic product catalog with Angular components displaying product details, images, descriptions, prices and user reviews. Implemented filtering and sorting options for enhanced user experience. **User Authentication**-Designed and integrated a user authentication system allowing users to register, log in and manage their profiles securely. Implemented authentication guards to restrict access to un-authenticated users. **Shopping Cart**-Developed a responsive shopping cart that enables users to add and remove items, view the carts contents and calculate the total cost. Implemented real time changes. **Checkout Process**-Designed a multi step checkout process, including user information, shipping details and payment processing. **Search Functionality**- Implemented real-time search for with auto suggestions and a result page enhancing product discoverability.
