EDUCATION

Master of Computer Application

Indira Gandhi National Open University (IGNOU) / New Delhi

01/2021– present

Bachelor of Computer Applications

Indira Gandhi National Open University (IGNOU) / New Delhi

06/2017-07/2020   *71%*

SKILLS

Node JS   Express JS   MongoDB

React JS   Redis   Socket

Git

WORK EXPERIENCE

Comfygen Pvt. Ltd. / Software Engineer

April 2022 - August 2023, Jaipur, Rajasthan

- I have collaborated with Node.js, Express.js, and MongoDB to construct comprehensive solutions for multiple projects. Additionally, I have seamlessly integrated APIs into both React.js and React Native frameworks. Built high quality web apps along with backed as Node JS.
- I have successfully implemented APIs for Twilio chat, video calling, and socket-based messaging. Furthermore, I have seamlessly integrated a payment method (Razor pay) into both the backend and the React frontend
- I have executed the integration of third-party Axis Bank Recharge APIs within the project's backend, enabling functionalities such as mobile phone prepaid and postpaid recharges, electricity bill payments, and various other transactions.
- I have incorporated numerous third-party APIs into the news web application.

PROJECTS

- **ATS –**

  ATS is a comprehensive platform that offers a wide range of services, including construction and home appliance repair, among others, to customers in Canada.

  ATS manages multiple contractors and workers who assist customers with various home-related concerns. It bears some resemblance to the Urban Clap App, wherein workers visit landlord's homes to fulfill their assigned tasks. Additionally, ATS incorporates the utilization of Google API to enhance location-based services.

  Team Members – 12
