Work Experience

GSLAB|GAVS Software Engineer (6/2023 - Present)

I have had the privilege of contributing to a variety of projects, each offering valuable opportunities to hone my coding skills and collaborate with seasoned professionals. Throughout these experiences, I've consistently demonstrated adaptability and a steadfast commitment to learning, effectively contributing to every stage of the software development life cycle.

Projects

E-Commerce Website (01/2023 - Present)
- Developed a fully functional E-Commerce website using the MERN stack (MongoDB, Express.js, React.js, Node.js) to gain hands-on experience with modern web development Technologies.
- https://github.com/sakshamarora912/ReactProjects/tree/main/Ecommerce

Crypto (12/2023 - 01/2024)
- Implemented a mini cryptocurrency tracker using React.js, HTML, and Bootstrap, enhancing proficiency in JavaScript frameworks.
- https://github.com/sakshamarora912/ReactProjects/tree/main/crypto_app

My Portfolio (04/2023 - 04/2023)
- Designed and developed a personal portfolio website using React.js, HTML, and Bootstrap to showcase projects and skills in web development.
- https://github.com/sakshamarora912/ReactProjects/tree/main/my_portfolio

Localhost Website
- Created a static front-end website utilizing HTML, CSS, JavaScript, Bootstrap, jQuery, SQL, and PHP, showcasing proficiency in both front-end and back-end technologies.
- https://github.com/sakshamarora912/ReactProjects/tree/main/localhost
