SUMMARY

MERN stack developer with a focus on designing and maintaining scalable applications. Proven ability in collaborative development, performance optimization, and cross-functional team coordination. Passionate about continuous learning and driving innovation.

EDUCATION

Lakshmi Narain College of Technology

Bachelors of Computer Science & Engineering. | **CGPA: 8.37**

- **Coursework:** Operating System, Data Structures & Algorithms, OOPS, DBMS

Bhopal, India

Oct 2020 – Jun 2024

Subhash Excellence School

12th – PCM | **Percentage: 82%**

Bhopal, India

June 2019 – March 2020

SKILLS SUMMARY

- **Programming Languages:** Python
- **Frontend Development:** HTML, CSS, JavaScript, Tailwind CSS, React
- **Backend Development:** Node.js, Express.js, MongoDB, SQL, RESTful APIs
- **Flutter:** Dart, Flutter framework, State Management (Provider, River pod)
- **Software Development Tools:** GitHub, Visual Studio, Jupyter notebook, Android Studio, Firebase

WORK EXPERIENCE

INTERN | Megi Coder Pvt. Ltd. | [LINK](#)

August 23- October 23

- **Led** the development of an admin panel for a web-based restaurant application using Flutter, improving client efficiency by 25%. Collaborated with cross-functional teams to deliver high-quality, reliable code, enhancing system performance and user experience.
- **Contributed** to the design and implementation of User Acceptance Testing (UAT) procedures. Ensured seamless software updates and client satisfaction through rigorous testing.

PROJECTS

Chat Application

June 2024

- **Description:** Developed a scalable real-time chat application using Node.js, Express.js, and Socket.io.
- **Features:** Designed and implemented a real-time messaging system using Socket.io, enabling instant message delivery and updates with user authentication.
- **Technologies:** React.js, Node.js, Express.js, MongoDB, Socket.io, JWT

Music-App

September 2024

- **Description:** Designed and built a Spotify clone, replicating key functionalities like user authentication, music streaming, and playlist management.
- **Features:** User authentication, music library browsing, search functionality, playlists, playback controls.
- **Technologies:** React.js, Node.js, Express.js, MongoDB, Spotify API, Tailwind CSS

Flutter Shopping App

July 2023

- **Description:** Developed a cross-platform Flutter-based Shopping List App to optimize the shopping experience, featuring a user-friendly interface for creating, managing, and sharing shopping lists on mobile platforms.
- **Features:** Integrated Firebase for real-time data synchronization.
- **Technologies:** Flutter, Dart, Firebase

CERTIFICATES

Back-End Web Development | [CERTIFICATE](#)

October 2023

- Acquired expertise in MERN Stack & associated logical concepts, enhancing capabilities.

Frontend Web Development | [CERTIFICATE](#)

May 2023

- Learned about the HTML5, CSS3 & JavaScript

Udemy- Flutter & Dart | [CERTIFICATE](#)

July 2023

- Developed a comprehensive understanding of the Flutter & Dart.

Cyber Security certification- CISCO | [CERTIFICATE](#)

April 2023
