💼 PROFESSIONAL EXPERIENCE

Front End Developer, *Just My Roots(India's largest interstate food delivering platform)*   Sep 2022 – Sep 2023
Gurgaon, India
- Working as a part of a development team that includes other React developers a project manager, a QA professional, and designers.
- Created a partner's page module for the company for client interaction.
- Added modules on the admin website of the company.
- Worked on libraries like Material UI and Bootstrap..
- Is responsible to complete the day-to-day tasks and give the report by the end of the day.

Web Developer, *YantroMitra Learning Technologies Pvt Ltd.*   May 2022 – Aug 2022
Remote, India
- Interned for 3 months as a Web Developer.
- Developed their product page with other interns.
- Worked with a team of interns to fully design their website.
- Discussed some new features that have to be implemented on the website.

📁 PROJECTS

My Portfolio ⬈
- Created my personal **Portfolio** using HTML, CSS, and JavaScript to which I have added **12 other projects** using this technology all hosted on Netlify.
- Written some blogs as well on some interesting topics which I have added.
- Planning to make the same using ReactJs.

Attendance Management System Project in Python
- This is a GUI-based project that uses **Tkinter module** in Python for GUI purposes.
- I have used two libraries here Tkinter module and SQLite3.
- SQLite3 is a lightweight database library that helps us to deal with data in this project.
- Tkinter is a GUI toolkit library that helps us to create rich interfaces.
