

## OBJECTIVE

As a recent graduate with a Bachelor's degree in Computer Science, I am enthusiastic about embarking on my career as a software developer. My objective is to leverage my foundation in programming languages like JavaScript along with my passion for solving complex problems, to contribute effectively to a dynamic software development team.

I am eager to learn and adapt to new technologies, collaborate with experienced professionals, and actively participate in projects that enable me to enhance my coding skills, develop innovative solutions, and make a meaningful impact in the world of software development.

## EDUCATION

### **B.Tech in Computer Science**

Graphic Era University, CGPA - 8.1 (2019-23)

### **Senior Secondary - CBSE**

Kendriya Vidyalaya IIP

## PROJECTS

### **Fresh Look - A shopping Website**

**Project Link** - <https://fresh-look-dhsineqy5-sarthaknegi296.vercel.app/>

**Code Link :-** <https://github.com/sarthaknegi296/Fresh-Look>

It is responsive shopping website's frontend, created using React, tailwind and ChakraUI.

Also, used react-router-dom library for optimisation (going from one page to another page within the website)

### **React-Router-ProjectWebsite**

**Project Link** - <https://react-router-learn-app.vercel.app/>

**Code Link :-** <https://github.com/sarthaknegi296/React-Router-ProjectWebsite>

I've built this project from scratch with React and react's library React-router-dom and with Tailwind CSS. I've learned how we can optimize our website by using react-router-dom library and avoid reloading our websites with the help of tag. Also, how we can catch parameters passed by the user in the search box and display the results accordingly.

### **Video Streaming Website Frontend**

**Project Link** - <https://video-streaming-frontend.vercel.app/>

**Code Link :-** <https://github.com/sarthaknegi296/VideoStreamingFrontend>

In this project, I've build a video streaming website's frontend using React, and for styling I've used Chakra UI and for routing I've used react-router-dom-library.

### **Cryptocurrency Exchange Website Project**

**Project Link** - <https://crypto-currency-exchange-app-project.vercel.app/>

**Code Link :-** <https://github.com/sarthaknegi296/CryptoCurrencyExchangeApp-Project>

It is cryptocurrency platform in which we can see the top exchanges in the world, also, the currency which are traded and the current prices in INR, USD and EUR.

## SKILLS

- HTML
- CSS
- Modern JavaScript
- React
- Tailwind CSS
- C++
- OOPs
- Linux
