SUMMARY

Passionate Frontend Developer with hands-on experience in HTML, CSS, JavaScript, and modern frameworks like React.js, Redux, and Node.js. Proven ability in implementing responsive web designs that enhance user engagement and functionality. Seeking a dynamic role to leverage my technical skills, creative problem-solving, and dedication to building impactful digital solutions.

EDUCATION

Post Graduate Diploma in Mobile Computing (PG-DMC)

Sunbeam Institute of Technology Park • Pune, Maharashtra • 2024 • 60.43%

B.Tech in Electronics and Telecommunication Engineering

C.V. Raman Global University • Bhubaneswar, Odisha • 2022 • 62.07%

PROJECTS

Online Movie Ticket Booking System

Centre for Development of Advanced Computing, India • github.com/W2-80477/Movie_Ticket_Booking_Project.git

- January 2024 - February 2024
- Implemented an advanced ticket booking platform using Node.js, React.js, Redux, MySQL, and Java for Android.
- Developed JWT-based secure authentication, increasing user retention by 20% through seamless login and personalized experiences.
- Engineered an intuitive seat selection process, improving the booking experience by reducing search time by 30%.
- Enhanced user experience with efficient search and filter functionalities, enabling users to find preferred movies quickly.

Cryptocurrency Dashboard

Almabetter • github.com/W2-80477/cryptoDashboard.git • February 2023 - March 2023

- Built a cryptocurrency data visualization dashboard using React.js, Redux, and CoinGecko API.
- Integrated Redux Thunk and Axios to fetch and display real-time cryptocurrency data.
- Created interactive charts with Chart.js, allowing users to analyze and switch between data views for enhanced insights.
- Designed with Tailwind CSS for responsiveness, achieving a 95% satisfaction rating on UI design.

CERTIFICATIONS

Frontend Development

Almabetter • 2023

- Certified in responsive web development with expertise in API integration, UI optimization, and accessible design.

Backend Development

Almabetter • 2023

- Verified skills in server-side programming, RESTful API development, and database management.

Full Stack Web Development

Almabetter • 2023

- Comprehensive training in building dynamic user interfaces, server-side functionality, and full-stack deployment.

SKILLS

Programming Languages: Core Java, JavaScript (ES6), HTML5, CSS3.

Frontend Frameworks: React.js, Bootstrap, Tailwind CSS, Next.js.

Backend Technologies: Node.js, Express.js, RESTful APIs.

Databases: MySQL, MongoDB.

Mobile Development: Android (Java).

Soft Skills: Adaptability, Diligent, Quick Learner.
