

# Saurabh Singh

## Frontend Developer

A passionate and results-driven Frontend Developer with almost 2 years of hands-on experience in building responsive web interfaces and high-performance web applications. Proficient in HTML5, CSS, JavaScript, and modern frameworks like React.js, with a strong focus on UI/UX design and cross-browser compatibility. Skilled in writing clean, maintainable code, optimizing browser performance, and collaborating effectively with backend developers and designers to deliver seamless user experiences. Adept at working independently with quick turnarounds, committed to building scalable, maintainable front-end architectures. Familiar with REST APIs and Git version control.
