Shahid Qureshi
Software Engineer

qureshi.shahid7777@gmail.com

+91-7999498411

Raipur, Chhattisgarh, INDIA

Proficient in multiple programming languages and experienced in developing complex software applications. Versatile software developer with a deep understanding of software development principles and a focus on delivering exceptional results.

WORK EXPERIENCE

Software Engineer
Think Future Technologies Pvt. Ltd.

03/08/2022 - Present

I am working on a contra-builder project, which builds the exercises with different languages and provides widgets like a console, fake browser emulator, and so on using the MERN tech stack.

Software Engineer
Capgemini India Pvt. Ltd.

06/10/2020 - 29/07/2022

Worked on Block-chain admin dashboard project, which maintain complete details of the players or users and handle the full information from the dashboard using MERN stack technology with some flavor of Block-chain.

Automation Engineer
MG Automation

01/01/2020 - 05/10/2020

Worked on some industrial automation tools like PLC, stepper motors, and integrated software applications onto them, to handle, manage and enhance the workflow by using NodeJS and PHP on the server side, ReactJS on the client, and MYSQL as the database.

Automation Engineer
RoboDatics

18/03/2019 - 25/09/2019

Worked on core electronics with embedded systems and the Internet of Things and developed application to manage them using PHP and MYSQL on the server side.
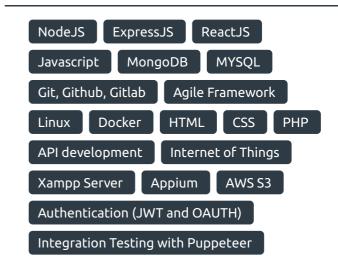

EDUCATION

Bachelor of Engineering
Electronics & Telecommunication

Higher Secondary Certificate
Adarsh Vidyalaya, Tatibandh

Secondary School Certificate
Adarsh Vidyalaya, Tatibandh

TECHNICAL SKILLS

NodeJS ExpressJS ReactJS Javascript MongoDB MYSQL Git, Github, Gitlab Agile Framework Linux Docker HTML CSS PHP API development Internet of Things Xampp Server Appium AWS S3 Authentication (JWT and OAUTH) Integration Testing with Puppeteer

INTERPERSONAL SKILLS

Inspiring and motivating others to active greatness.

Ability to solve complex problems.

Being good at team building and at building trust.

Dedicated and Determind.

Ability to cope-up with different situation.

ACHIEVEMENTS AND CERTIFICATES

Crash Course on Python (10/12/2020 - 08/01/2021)
Google IT Automation

VHDL (15/05/2018 - 15/06/2018)
Success Gate

Java and SQL programming (15/05/2018 - 15/06/2018)
Innolate Technologies

C Programming (13/02/2018 - 25/03/2018)
Innolate Technologies

Won Silver medal on National Cyber Olympiad

Executive member of Cultural committee in Adarsh Vidyalaya

PROJECTS

Exercise builder - Contra Scorm

❖ Developed platform for the users to create their courses of exercise on any language with some widgets like fake console, fake browser, and fake devices.

Admin Panel for Managing members

❖ Developed Admin Dashboard to manage the access and other details like profile, privileges, tokens, referrals and so on using MERN stack.

Payment Gateway on Block Chain

❖ Developed payment gateway which accepts crypt's as the payment and integrated on a ecommerce website so that user can purchase anything by using crypto as the payment method.

Expense Tracker

❖ It is my personal project in which I designed a mobile application using React-Native to manage my personal expense, which shows my transactions by day, month, year and also can shows the history in graphical view.

IOT based Home Automation

❖ Designed an IOT-based home automation system which combines smart devices, sensors, and a central control hub to create a seamless and intelligent environment within your home.

LANGUAGES

English

❖ Full Professional Proficiency

Hindi

❖ Full Professional Proficiency
