

Shashi Verma (React Developer)

Associate Software Engineer

Excellent team player with a positive attitude. Solid background in building web and mobile applications. I have Total 2.3 year experience of software development. And 1.7 years of hands-on experience on ReactJS with redux . And working closely with the team member. Also worked in the agile modal. Complex problem-solver with an analytical and driven mindset. Dedicated to achieving demanding development objectives according to a tight schedule while producing impeccable code.

PROJECTS

Quiktrak Inspector-onBoarding
(09/2021 - 01 / 2023)

- it's a mobile base application with PWA as well as a desktop application. basically it's a job inspection application.
- I have implemented API integration. and also implement the redux.
- this application was built using function component

Quiktrak-DRA (dealer Reconciliation application)
(11/2021 - 01 / 2023)

- desktop and mobile application with API integration with validation, and also using redux to store the API data. And API calls and retrieves the data from API and implements it on UI.
- I have implemented the popup screen with the respective JSON response which is in the API. based on the JSON response multiple-choice popup screen will render in the application
- In that application, I have also implemented Dynamic CSS.which is coming in the API response

CFS-Australasia (Customer Feedback Session)
(06/2021 - 09/2021)

- This is a responsive web application. in this application, I am using hooks with redux and also implementing the API integration.
