SKILLS

Front-End: HTML5, CSS3 (Bootstrap, Tailwind), JavaScript, React.js

Back-End: Node.js, Express.js, RESTful APIs

Databases: MongoDB, MySQL **Tools:** Redux, Git, Postman

EXPERIENCE

NadCab Lab Technology, Prayagraj

Position: - MERN Stack Developer

September 2024 - Present

- Developed user interfaces for decentralized applications (dApps) integrated with blockchain technology.
- Collaborated with backend teams to ensure seamless integration of blockchain features.
- Built responsive and interactive frontend components using React.js and Tailwind CSS.
- Worked on projects dependent on blockchain for decentralized functionality.

Hanumant Technology Pvt. Ltd, Lucknow

Position:- Full Stack Web Development Intern

March 2024 - September 2024

Frontend Development:

- Built responsive user interfaces using HTML, CSS, and JavaScript.
- Worked with modern frameworks like React for dynamic UI development.
- Ensured cross-browser compatibility and user-centric design.

Backend Development:

- Designed and implemented server-side logic using Node.js and Express.js.
- Managed APIs, databases, and server operations.
- Ensured scalability and security in application architecture.

Database Management:

• Worked with both relational (MySQL) and non-relational (MongoDB) databases for data storage and retrieval.

EDUCATION

B.Tech (Electrical and Electronics Engineering)

Dr. A.P.J. Abdul Kalam Technical University, Lucknow

June 2021 - August 2024

Diploma (Electrical Engineering) Board of Technical Education, Uttar Pradesh,

LucknowJune 2018 – August 2021

PROJECTS

Bara Grow (Decentralized Application)

Technologies: React.js, Bootstrap, Blockchain Integration

- Developed the frontend for a decentralized application (dApp) using React.js.
- Integrated blockchain-based features for decentralized functionality.
- Designed responsive and user-friendly interfaces with Tailwind CSS.

USDT Ocean (Blockchain-Based Payment System)

Technologies: React.js, Bootstrap, Blockchain Integration

- Built the frontend for a blockchain-based payment system.
- Ensured seamless integration with blockchain for secure and decentralized transactions.
- Optimized UI for better user experience and performance.
