WORK EXPERIENCE

Software Engineer
Citiustech Healthcare Technology Pvt Ltd

04/2021 - 04/2023   *Noida*

Project Name : Healthedge , **Tech used** : Java 8, Spring, Hibernate, Mysql, **PMT** : Jira , **IDE** : IntelliJ, **Other tools** : BitBucket, Jenkins

Achievements/Tasks

- Analyzed business requirements, creating project plans, and driving successful project implementations. Proficient in Agile methodologies, including Scrum, Continuous Integration, and Continuous Development, consistently delivering high-quality software solutions within established timelines.

- Collaborated closely with QA teams to conduct integration tests, ensuring system synchronization, and adeptly coded and implemented enhancements based on precise requirements. Employed industry-standard tools like JUnit and Mockito to rigorously test code, ensuring optimal functionality and performance.

- Exhibited a strong commitment to codebase quality by conducting thorough reviews and addressing all Sonar bugs and errors, maintaining a clean and efficient codebase.

- Engaged in client-focused development demos, presenting project progress to project managers, and ensuring alignment with project requirements. Diligently documented new project structures and configuration updates to enhance team understanding and facilitate seamless collaboration among team members.

- Proactively engaged in client communication through regular conference calls, ensuring discussions about upcoming project enhancements closely aligned with objectives. This approach not only facilitated the exchange of valuable insights but also significantly strengthened and deepened professional relationships with clients.

EDUCATION

Bachelor of Engineering
Rajiv Gandhi Proudyogiki Vishwavidyalaya Bhopal

2016 - 2020   *8.36 CGPA*

TECHNOLOGY AND TOOLS

`Java 8` `Spring boot` `Spring Security` `Spring MVC` `Hibernate/JPA` `MySQL` `Microservices` `Rest APIs` `Junit/Mockito` `Sonar` `HTML` `CSS` `JavaScript` `React` `Agile` `Project management tool : JIRA` `IDE : IntelliJ IDEA , Eclipse` `Tomcat` `Other tools : Jenkins, Bitbucket, Confluence, Maven, Nexus, SonarQube`

PERSONAL PROJECTS

Personal Blog Application

- Created a dynamic web application using Spring Boot, Hibernate, and MySQL, empowering users to manage personalized blogs.

- Implemented secure user registration and login, enabling seamless post management with CRUD functionality. Utilized RESTful APIs for a user-friendly experience and Spring Data JPA for efficient database interaction.

- Emphasized robust error handling for improved user experience, showcasing proficiency in modern web development technologies and user-centric application design.

ACHIEVEMENTS

Achieved a top 5 ranking in senior secondary education within my district.

Received client manager's recognition for delivering an outstanding development demonstration.

CERTIFICATES

Full Stack: React and Java Spring Boot
Professional Working Proficiency

Spring & Hibernate (inc Spring Boot)
Professional Working Proficiency
