## PROJECTS ACCOMPLISHED

**Project Title** : FarmCropsGIS

**Environment** : Core Java, Servlets, JSP, Spring Framework

### Description :

This product is having various modules and it's related to individual farmers crops GIS tagging, which is making easy to make farmers competitive and sell the individual farmers crops in world market with proper benefits to farmers.

**Project Title : Advance Animal Detection and Prevention System (2019-2020)**

**Hardware : DHT-11, PIR sensor, Node MCU, Buzzer, Relay, Ultrasonic, Fire Sensors**

**Description :**

We have designed our setup that will work during day or night and will not kill or harm wild animals or stray animals. It will only prevent the animals entering the fields. And it will inform the farmers about the presence of stray animals by providing them message alarm at their home this will be done by IOT techniques.
