🎓 EDUCATION

B.Tech (Computer Science),
Dr A P J Abdul Kalam Technical University
2019 – 2023

Intermediate(Class 12th),
Bishop Johnson School and College
2018 – 2019

HighSchool(Class 10th),
Bishop Johnson School And College
2016 – 2017

🧠 SKILLS

Programming skills: Java, JavaScript

Frontend: HTML, CSS, Tailwind CSS, ReactJS, Bootstrap, Redux

Backend: NodeJS, ExpressJS, NoSQL

Fundamentals: OOP's, Database Management System(DBMS)

🏆 AWARDS

- Solved 250+ DSA questions.

💼 PROFESSIONAL EXPERIENCE

Otusone, Software Developer Intern

August 2023 – present

- Experienced in utilizing **React.js, TypeScript, and Bootstrap** to craft modern, high-performance user interfaces while maintaining code maintainability and scalability.
- Strong problem-solving capabilities, enabling efficient troubleshooting and innovative solutions to technical challenges in **software development**.
- Proficient in seamlessly **integrating APIs** into web applications to access and display real-time data, enhancing user experience and functionality.
- Work on various **live projects**.

Rebelcorp, Intern Front-end Developer

September 2021 – May 2022

- Developed a Responsive website.
- Built reusable components using React to **enhance application functionality**.
- Worked with HTML and CSS to design and develop **responsive user interfaces** and also worked with **WordPress**.
- Assisted in implementing user **authentication and authorization**.
- Participated in **code reviews** to identify and correct errors and improve code quality.

📁 PROJECTS

Chat point

- Develop a **real-time chat application** using modern web technologies and implement the necessary backend functionality to enable users to **communicate and exchange messages in real-time**.
- Designed and developed the user interface of the chat application using HTML, CSS, and JavaScript.
- Developed a **backend server** using **Node.js** to handle **incoming messages and store them in a MongoDB database**.
- **Tools and Technologies** - HTML,CSS,JavaScript ReactJS, NodeJS, Mongoddb, VsCode

Covid-19 Tracker 🌐

- Developed a user-friendly COVID-19 Tracker web application that provides real-time and comprehensive information to users.
- Utilized **JavaScript** and **React** to fetch and parse data from **APIs that provide COVID-19 statistics**.
- Successfully integrated **react-chartjs-2** library to present COVID-19 **statistics** through interactive and visually appealing charts and graphs.
- Implemented search functionality allowing users to search for specific countries or regions and display corresponding statistics.
- **Tools and Technology** used - **HTML,CSS, JavaScript ,ReactJS, VsCode**.

Ecommerce Website 🌐

- Designed and implemented the user interface using HTML, CSS, and React.js components, ensuring a visually appealing and intuitive design.
- Implemented secure user authentication and authorization using Firebase authentication services.
- Utilized React Router Dom to enhance navigation and provide a smooth user experience.
- Utilized JavaScript and React.js to manage product data, including fetching and rendering product listings and details.
- Integrated shopping cart functionality, enabling users to add and remove items, and calculate the total price.
- **Tools and Technologies** used - **HTML, CSS, JavaScript, React js,Firebase,Material ui,VsCode**.
