Shobha

Mobile: (+91) 7838493116   **Email:yadav.shobha1271999@gmail.com**

Professional Summary

- 2+ Years of experience in Software Testing including manual and automation
- Having experience on Automation Tools like Cypress, webdriverIO, playwright, protractor.
- Very good knowledge in manual testing
- Very good knowledge in compatibility testing, regression testing, ad-hoc testing, exploratory testing.
- Experience in developing Test Cases based on Requirements.
- Good knowledge of writing, execution and reviewing of test cases based on requirements.
- Good knowledge in smoke, functionality, integration, system testing, acceptance testing.
- Experienced in version control using Git, proficient in branching, merging, committing, resolving merge conflicts, and collaborating with team members through platforms like GitHub or Bitbucket.
- Skilled in using Node.js to create powerful and efficient automation frameworks for testing software.
- Good knowledge of testing in all the phases of STLC
- Very good knowledge in all the phases of SDLC
- Good knowledge of white box testing and black box testing.
- Having good experience in testing API using Postman
- Good knowledge on Object Oriented Programming concepts and Java Programming.
- Ability to learn and adapt to new tools and technologies very quickly.
- Ability to communicate effectively in verbal and written English.
- Excellent Communication and interpersonal skills with clear understanding of business processes and ability to work as part of a team or individually.

TECHNICAL SKILLS:

Programming Languages	Core Java, JavaScript, TypeScript
Automation Tools	Cypress, playwright, protractor, webdriverIO
Defect Tracking Tools	JIRA
Frameworks	Cucumber, Jasmine, Mocha
Development Tools	Microsoft Visual Studio, IntelliJ
Build Tools	GIT, Bitbucket, Github, Gitlab
Domains	E-Commerce, Administration, Freelancing.
CI/CD	Jenkins(Pipeline)

WORK EXPEREIENCE:

- **Working as a Software Test Engineer in Panorama Software Solutions from 2022 to till now.**

PROJECTS EXPERIENCE:

PROJECT 1:

Project Name: Raindrop

Technologies used: Cypress, protractor, playwright, JavaScript, Cucumber, Postman
Description: AJ Bell is a British public limited company that provides online investment platforms and stockbroker services, the company also provides third party SIPP administration services.

Roles and Responsibilities:
