WORK EXPERIENCE

Software Developer | Invostock Technologies   Oct 2023 - April 2024

- Architected and developed a React Native application from the ground up, overseeing end-to-end design, development, and deployment processes, resulting in a 20% increase in the organization's user base.
- Integrated RESTful APIs and collaborated with the backend team to ensure seamless data flow, leveraging React Native core components and state management for optimized performance and user experience.
- Conducted extensive debugging to optimize and reduce the app bundle size by 70-80%, significantly improving app speed. Utilized Agile methodologies to manage development cycles, performed thorough testing and debugging, and implemented CI/CD pipelines to ensure high code quality and reliable app functionality.

ReactJs Developer | Namekart   Oct 2022 - Aug 2023

- Developed and optimized a human-centric platform using React.js, Redux, React Router, and Git version control, ensuring web accessibility and cross-browser compatibility.
- Independently built a fully functional app with Material UI, implementing comprehensive testing strategies with Jest/React Testing Library and integrating RESTful APIs for real-time data interactions.

Summer Internship | IIM Rohtak   May 2022 - July 2022

- Expert in HTML5, CSS3, and React.js, utilizing React Hooks and responsive design to enhance user experiences and adhere to best practices.

SKILLS SUMMARY

- **Languages: JavaScript, HTML, CSS.**
- **Libraries: ReactJs, React Native, Redux Toolkit, Material UI, Bootstrap, Tailwind**
- **Tools: Node, NPM, Yarn, Git, Firebase.**

EDUCATION

Birla Institute Of Applied Sciences, Bhimtal   Aug 2018 - July 2022
Bachelor of Technology in Electronics and Communication.

PROJECTS

EXPENSE TRACKER

A web application developed using ReactJS designed to help users efficiently manage and monitor their financial transactions. This user friendly expense tracking tool allows users to input, categorize, and visualize their expenses.

Movie Streaming App

Developed a React Native movie streaming app featuring user login/profiles, main movie selection, Continue Watching, and an integrated video player. Utilized React Navigation, Redux, Axios, and React Native Video to ensure a seamless and responsive user experience.

React Native Food App

Harnessing Google Maps APIs, our React Native food app offers food ordering, real-time location tracking, one-on-one chat, and push notifications, ensuring a seamless user experience throughout the ordering and delivery process.
