

## Shubham Madankar

Wakad, Pune | [shubhammadankar047@gmail.com](mailto:shubhammadankar047@gmail.com) | +91 7385120545

**Career Objective:** An experienced Professional in **Functional, Non Functional, Globalization, UI Testing, API Testing, Webservice Testing using SOAP UI, API Testing and Automation Testing (Selenium WebDriver with JAVA)**. wants be associated with a progressive organization that can provide me a dynamic work sphere, challenging assignments with responsibility which encourages creativity and keeps in touch with the latest technologies/ trends in **testing** field and have an urge and inclination for learning new technologies, a strong work ethic combined with a commitment to excellence in all projects undertaken.

### PROFESSIONAL SUMMARY

- **3 Years 3 Months** of **industry experience** in the area of **Automation & Manual Testing**.
- Automation Testing using **Selenium WebDriver**, API testing using **Postman**.
- Highly experienced in working in Agile Teams.
- Good experience in creating custom **xpath** identifier for locating objects on web pages.
- Developing, Executing & Maintaining Automation Test Cases using **Java Programming Features**.
- Implemented and developed automated test practices for web applications primarily using Selenium WebDriver and TestNG.
- Designed and created test scripts to address areas such as software scenarios, regression testing, negative testing, retesting.
- **Debugging** & Running the Test, Analyzing the Test Results.
- Experience in language like **Java, SQL**.
- Experience with tools like **TestNG, Jenkins and Maven**.
- Experience using **SQL** to retrieve and use data in databases.
- Experience of working on operating systems like **Windows** platforms.
- Familiar with all aspects of **SDLC** and **STLC**.
- Familiar with **Functional & Non-Functional Testing, Retesting & Regression Testing**.
- Well versed with **Test Documentation (Test Scenarios, Test Data, Test Cases and Defect Reports)**.
- Highly **flexible** and **capable** of **learning new tools and applications**.

### TECHNICAL SKILLS

Automation Testing	• Selenium WebDriver, TestNG, Maven
Manual Testing	• Expertise in Software Manual Testing Techniques
Application & Tools	• Eclipse, Jenkins, Maven, TestNG, GitHub
Browsers	• Firefox, Firefox, MS Edge
Test Management	• JIRA
Languages	• Java, SQL
Operating System	• Windows

### WORK EXPERIENCE

**Tibco Software India Pvt Ltd, Pune**

**March, 2019 -Present**

**Software quality analyst**

- Analysis of requirement, Application study and understanding manual test cases. Perform Black box testing, module testing & cross browser testing.
- Develop & execute the test case documents, reporting & tracking bug, interacting with developers.

## PROJECTS

---

1.

Project Name : **Hantec Markets**  
Domain : Investment Banking  
Client : Hantec Markets, UK  
Roles and Responsibilities

- Responsible for Functional Testing, Regression Testing, Retesting Testing.
- Responsible for designing the Automation Framework Structure.
- Understanding the business requirements, preparing test scenario, test data & test cases.
- Responsible for Bug management activities using JIRA.
- Enhanced Test cases using Java programming features and TestNG Annotations.
- Execution of Selenium Test cases and Reporting defects.
- Interpreted and converted manual test cases into automation, sanity and regression suites.
- Involved in Regression Testing.
- Preparation of weekly and monthly status reports.

2.

Project Name : **Medics Premier**  
Domain : Healthcare  
Client : Medics Premier, USA  
Roles and Responsibilities

- Involved in analysing the requirements and communicating with BA team for better understanding of the requirements.
- Requirement Analysis: Analyzing the requirements and communicating with BA team for better understanding of the requirements.
- Identified End to End Test Scenarios, Test Cases and Test Data.
- Validation of Expected output Vs Actual Output in respective logs files using Postman.
- Validation of Expected output Vs Actual output in respective database tables using SQL.
- Performing Functional Testing, Regression Testing.
- Identification of defects, registering them in Jira and reporting them to the lead.
- Executing API testing using postman.
- Responsible for testing deliverables, prioritizes and monitors activities to meet such dates for individual assigned features.

## EDUCATION

---

**Bachelor of Engineering** (Mechanical Engineering)  
Priyadarshini Institute of Engineering and Technology  
RTMNU, Nagpur

**2013-2017**
